1985-86 OUTLOOK

In just two seasons of fast-pitch competition, the Florida State softball program has made softball people across the nation sit up and take notice. With over 90 wins in two years, a pitching staff ranked in the top 10 in the nation each year and several tournament victories, the FSU fast-pitch reputation has advanced beyond its years.

"We have come on quickly as a fast-pitch team," said head coach JoAnne Graf, who begins her eighth season at Florida State in 1986. "Everyone knows who we are. Now we must start winning the one-run ball games, getting a few more tournament victories and beating the top 20 schools."

That will be a challenge in 1986. Although the infield and outfield positions are experienced and deep, the pitching staff will be almost completely new. Only one-third of last year's staff returns, in the person of sophomore Julie Larsen. Larsen was the Tribe's top hurler as a freshman, compiling an 18-1 record, leading the nation in strikeouts per game and keeping her ERA at a miniscule 0.29. Next to Larsen is "experienced newcomer" Roxanne Hantelman, a senior transfer from Texas Tech who will be the other work horse of the pitching staff.

"We lost two-thirds of our pitching staff, which was ranked sixth in the nation last year," Graf said. "But we feel good about having Julie and Roxanne. We expect both of them to be top-notch pitchers this season."

One key to the performance of the pitchers will be catching. 1986 Most Valuable Player Leslie Miller is gone and the position will be in the hands of junior Laurie Tiedt, Miller's back-up last season, and junior college transfer Carolyn Fiero. Graf expects the two to battle it out for the number one nod, but she likes Fiero's bat.

"Carolyn adds power to our line-up," Graf said. "While both catchers will get playing time, we really need a strong bat and Carolyn has the edge."

While a new face will be behind the catcher's mask in 1986, three-fourths of the infield returns intact. Only four-year letterwoman Wendy Rogers is gone from the 1985 infield which ranked second in the nation in fielding percentage.

Back for her fourth and final season is the Tribe's leading hitter for the past two seasons, shortstop Greta Bahn. The speedy leadoff hitter is expected to provide solid defense, speed and consistency at the plate once again.

Seniors also man the corners of the infield with Laurie Holler holding down third base and Barbara Gillespie at first. Gillespie, who transferred from a slow-pitch junior college program, finished 1985 as Florida State's second leading hitter. Holler was second on the team in RBI's from her slot as clean-up hitter.

"Our infield lost Miller and Rogers but I feel good about our returning players," Graf said. "They have a lot of experience and are also strong hitters. If we can work some of our new people in at second and behind the seniors, I think we'll be strong."

Newcomers who will back-up the seniors and have a chance to break into the starting line-up at second base include California natives Jill Bellamy, a shortstop/second baseman, and first baseman Lori Crouse, who may also see action in the outfield. Kari Keith and Debbie Smith, Bahn's back-ups at shortstop, may also be given a chance at second.

The strength of the 1986 team may be in the outfield where three players return and a host of talented newcomers challenge them. The returnees are juniors Judi Davison and Lynn Steele and senior Amy Snider. Davison is expected to come back from her 1985 shoulder surgery, after playing in only nine games last year, to take over the leftfield position. Snider, a two-year veteran of rightfield, achieved all-tournament recognition last year at the South Carolina Invitational and Graf looks for more of the same from her this season.

Newcomers who will challenge for a starting position include Crouse and another Californian, Sheri Emeterio. Emeterio looks to be a good bet to take over the centerfield position with her speed.

Graf's roster is one of the most lengthy in recent history. Sixteen names make the list and Graf is excited about the chance she will have to develop younger players at different positions.

"Almost all our newcomers can play a couple of positions," Graf said. "We'll just have to see who comes on, and of course, who is hitting well. Lori Crouse, Jill Bellamy and Carolyn Fiero all bring good bats and hopefully we'll start putting it together offensively this season."

Florida State will face its toughest fast pitch schedule ever with the Houston Classic, and South Carolina Invitational heading the list. With those tournaments plus the 24-team Lady Seminole Invitational, Florida State will see many of the nation's top teams including Texas A & M, Minnesota, Oklahoma State, Arizona State, Nebraska and South Carolina.

Looking over her 1986 squad, Graf likes what she sees.

"Our new people have a lot of fast-pitch experience and we already know what our veterans can do," Graf said. "We showed last year that F.S.U. can compete with anyone in the country, our main goal now is to continue to improve the quality of our program and start beating those top 20 schools. Then we can make it into the top 20 and into the NCAA tournament."

With Graf's history of softball success and two years of fast-pitch experience behind her, it's hard to bet against her in 1986.

COACHING STAFF

Head Coach
JoAnne Graf

During the first five years of her seven-year tenure at Florida State, softball coach JoAnne Graf achieved national recognition as one of the top slow-pitch collegiate coaches in the nation as she guided her team to back-to-back national championships in 1981 and 1982.

When Florida State made the switch to fast-pitch softball in 1984, many wondered whether a top slow-pitch coach could successfully lead a fast-pitch program. In the past two years, Graf has silenced the critics and shown her expertise in the fast-pitch arena.

Her two fast-pitch squads have amassed over 90 victories and five tournament championships and in 1985 added a state championship to the growing list of FSU fast-pitch successes.

As if that isn't enough, since picking up the fast-pitch game in 1984, a Florida State pitcher has led the nation in strikeouts each year while the FSU team earned run average has ranked in the top six in the country.

Over the past six years, Graf has led her teams to state, region and national crowns. Graf-coached slow-pitch teams won state championships in 1979-80-81-82 and region titles in 1981 and 82. In both those years, FSU went on from the regionals to win the national championship.

Graf's record for seven years stands at 310-70-4 for a winning percentage of .813. Since moving to the fast-pitch game, her record is an outstanding 91-17-4.

In 1981, Graf was named Florida AIAW Softball Coach-of-the-Year, but she is not the only member of the softball program to gather accolades. Twenty-seven of Graf's players have been named to all-state teams and 14 earned spots on all-region teams, including seven fast-pitch players.

Following FSU's second softball national championship in 1982, five players made first team All-American and in the two national championship tournaments, 16 FSU players were named to all-championship squads. Overall, more than 70 players have been named to post-season teams under Graf.

A 1975 graduate of Florida State, Graf returned to her alma mater after two years at the University of North Carolina at Greensboro where she earned her master's degree in physical education. Graf also worked in the athletic department as head coach for the university's men's and women's swim teams and assistant softball coach.

During her undergraduate days at Florida State, Graf was a member of both the tennis and softball teams. She co-captained the 1974 and 1975 softball squads that finished second in state tournament.

Graf, who serves as director of the Florida State softball camp each summer, is a former president of the Florida Collegiate Athletic Association. She is also a member of the NCAA Softball Committee and chairwomen of the NCAA softball advisory committee for the South region.

She is presently seeking her doctorate in administration and needs only her dissertation to complete the requirements.

Assistant Coach
Winnie Dodgion

As assistant coach, Winnie Dodgion plays a vital role in the successes of the Florida State softball team each year and was made a full-time member of the women's athletic staff in 1985. In addition to her on-the-field coaching duties, Dodgion heads FSU's recruiting efforts. Several other administrative duties come under her jurisdiction as does the task of coaching Seminole outfielders.

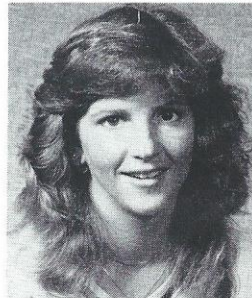

Dodgion came to Tallahassee in 1982 with experience as both a coach and as a player. Prior to joining the Tribe team, she taught physical education and coached the softball team at Liberty Junior High School in Orlando.

While teaching and coaching at Liberty, she was assistant softball coach at the University of Central Florida in Orlando in 1979 and again in 1981.

Dodgion graduated from Central Florida in 1979. During college, she was a varsity softball player from 1975 to 1978 and from 1974-75. She also served as head softball coach at Boone High School.

Following graduation, Dodgion played for the "Dots" slow-pitch softball team in Miami. In 1979, the squad won the national open championship. Dodgion was a member of another title-winning team in 1981 as a player/coach for the Orlando Stars. She was named Most Valuable Player of the national tournament that year. She also received the Golden Glove award in the regional tournament.

Her playing career has not stopped since coming to Tallahassee. In 1983 she was named second team ASA All-American at the Class "A" national tournament in Sacramento, CA. Dodgion earned first team All-American honors once again in 1984 at the national championship tournament in Midland, Texas.

Pitching Coach
Tina Kyler

Tina Kyler, Florida State's top pitcher over the past two seasons, remains with the program in 1986 as its pitching coach.

Her credentials for the job are impressive. Kyler pitched her way into NCAA record books since coming to Florida State. from Huntington Beach, Ca. She led the nation in strikeouts her junior season, averaging 11.6 per game. Following her senior year, she ranked ninth in the nation in strikeouts and 13th in earned run average.

During her two years at FSU, the Seminole pitching staff ranked fifth and sixth in the nation in earned run average. Kyler's career record of 33-10-2 includes 30 shutouts, seven one-hitters and a no-hitter.

Kyler was named Most Valuable Player of FSU's inaugural fastpitch team in 1984 and also made two appearances on the NCAA-South All-region team. She was named to three all-tournament teams during her playing days.

She will earn her bachelor's degree from Florida State in 1986. Kyler will work extensively with the Lady Seminoles pitching staff and will also assist Graf with other coaching duties.

This is Florida State

Florida State University, a coeducational institution with an enrollment of 21,500 students, is located in Tallahassee, the capital of Florida.

The beautiful 345-acre campus is wrapped in greenery that combines the blossoms of camellias, azaleas and dogwoods with palm trees and moss-hung oaks. The campus looks enough like Ivy League schools, particularly around its older, Gothic buildings, that several times each winter New York

advertising agencies fake summer scenes supposedly shot at Princeton or Harvard. On the west side of campus, the scene is dominated by the contemporary, high-rise science complex.

There are more than 1,300 faculty including four members of the National Academy of Sciences. Florida State is one of only five universities in the nation to have its own supercomputer.

Academic programs in the sciences (notably physics, chemistry, biology and meteorology) and the performing arts (music, theater, visual arts and dance) have high national rankings. Other strong departments among the 15 schools and colleges include criminology, hospitality administration, accounting, statistics and interior design. FSU's pre-med program has a much higher than average medical school placement rate for its graduates.

Today, FSU offers students the opportunity to choose from more than 100 career options in arts and sciences, business, communication, criminology, education, home economics, law, library and information studies, music, nursing, social sciences, social work, theater, visual arts and engineering, which operates in cooperation with Florida A&M University. The most popular majors at FSU are business, biology, computer science and communication.

Florida State has honors programs for its top students. Overseas study program in fields ranging from law to hotel and restaurant administration are offered in Florence, Italy; Oxford and London, England; Switzerland, Costa Rica, Yugoslavia and the Panama Canal Zone.

Social life for many centers around 24 fraternities and 20 sororities. Wind surfing, swimming and sunning are among the activities to be enjoyed at FSU's convenient lakeside "Reservation" or along the sandy beaches of nearby coasts.

A unique extracurricular activity is the Flying High Circus, the nation's only all-collegiate circus. Students from every academic major can become stars on the flying trapeze, on the high wire or in clown acts.

Fine entertainment is provided year-round by the FSU Schools of Music and Theater and the Department of Dance.

Student Campus Entertainment presents concerts, movies, lectures and other activities throughout the year and the Artist Series brings professional entertainers to campus.

Student government at FSU is one of the most powerful in the country. Elected students spend an annual budget of about \$1.7 million. Student government funds intramurals, activities at the Student Union and more than 200 interest organizations.

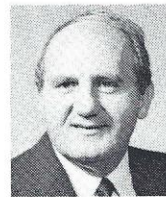

C.W. "HOOTIE" INGRAM *Athletic Director*

Cecil Ingram, known to most of his friends and associates as simply "Hootie," has headed the Florida State athletic department since 1981 after serving as associate commissioner of the Southeastern Conference for eight years.

Since his arrival in Tallahassee, Ingram has initiated a \$10 million dollar building program for athletic facilities, including the Moore Athletic Center - home of Florida State athletics.

A native of Tuscaloosa, Ala., Ingram played for the Crimson Tide from 1951 to 1954 and led the nation in interceptions as a sophomore. He also lettered in baseball as an infielder. Following a stint in the army, Ingram turned to coaching. After several years of high school coaching, Ingram moved into collegiate athletics; making assistant coaching stops at Wake Forest, Virginia Tech, Georgia and Arkansas.

BOB GOIN *Associate Athletic Director*

A member of the Florida State athletic staff since 1981, Bob Goin begins his fifth full year as Associate Athletic Director.

All men's non-revenue coaches report to Goin and he also assists in the day-to-day operations of the department. A large portion of football, basketball and baseball game-day operations fall under his leadership.

A 1959 graduate of Bethany College, Goin received his master's degree from West Virginia in 1961. From 1960-76, Goin served Bethany in several administrative and coaching capacities before moving on to West Virginia as an assistant athletic director. He was named athletic director at California (Pa.) State College in 1980, where he formed that institution's first scholarship fund for athletics and the college's first booster club.

CHARLES W. EHRHARDT *Faculty Athletic Committee Chairman*

A Florida State University professor of law, Charles W. Ehrhardt is in his second year as Chairman of the Athletic Committee.

He is currently in his second stint on the committee, having served 1969-71 and then being reappointed to the board in 1983. As chairman, Ehrhardt succeeded Dr. James Jones, who held that position since 1980. Ehrhardt becomes Florida State's representative to the NCAA and was also president of the Metro Conference in 1984-85.

A native of Elkader, Iowa, Ehrhardt received his bachelor's degree from Iowa in 1962 before earning a law degree at Iowa State two years later. He came to Florida State in 1967.

A widely respected expert in the field of Evidence, Ehrhardt is frequently called on to lecture on the subject by lawyers and judges nationwide.
