# 1991 AT&T LONG DISTANCE AWARD

## AT&T salutes the best long distance players.

The editors of Touchdown Illustrated are proud to announce the AT&T Long Distance Awards. Special recognition for the players that go the distance from the company that does too. Each week during the regular season, Division I-A players will be honored in six categories—longest run from scrimmage, longest pass completion, longest punt return, longest kickoff return, longest punt and longest field goal. AT&T will award a plaque to each individual player, and will make a contribution in the player's name to his school's general scholarship fund.

At the conclusion of the season, AT&T will present Long Distance Awards based on season-long statistics in each of the above categories. These players will receive trophies and AT&T will make a scholarship donation in each of their names to their respective schools. AT&T's total scholarship contributions from the weekly and season-long awards will exceed \$35,000!

## LAST SEASON'S LEADERS IN THE AT&T LONG DISTANCE CATEGORIES:

### PUNT RETURNS (AVG. PER RETURN)

Dave McCloughan, Colorado.....	16.38
Beno Bryant, Washington.....	15.56
Jeff Graham, Ohio State.....	14.86
Tony James, Mississippi St.....	14.83
Tripp Welborne, Michigan.....	14.68

### KICKOFF RETURNS (Avg. per return)

Dale Carter, Tennessee.....	29.82
Desmond Howard, Michigan.....	29.50
Tyrone Hughes, Nebraska.....	29.06
Raymond Washington, New Mex. St.....	29.00
Randy Jones, Duke.....	28.25

### RUSHING YARDS PER GAME

Gerald Hudson, Oklahoma State.....	149.27
Eric Bieniemy, Colorado.....	148.00
Darren Lewis, Texas A&M.....	140.92
Greg Lewis, Washington.....	127.90
Tico Duckett, Michigan State.....	125.09

### RECEIVING YARDS PER GAME

Patrick Rowe, San Diego State.....	126.55
Aaron Turner, Pacific.....	114.91
Herman Moore, Virginia.....	108.18
Andy Boyce, Brigham Young.....	103.42
Dennis Arey, San Diego State.....	101.64

### PASSING YARDS PER GAME

David Klingler, Houston.....	467.27
Ty Detmer, Brigham Young.....	432.33
Troy Kopp, Pacific.....	367.88
Dan McGwire, San Diego State.....	348.45
Craig Erickson, Miami.....	305.73

### PUNTING (AVG. PER PUNT)

Cris Shale, Bowling Green.....	46.77
Brian Greenfield, Pittsburgh.....	45.60
Jason Hasson, Washington State.....	45.41
Chris Gardocki, Clemson.....	44.34
Greg Hertzog, West Virginia.....	43.50

At AT&T, we honor players who've reached their goals on the field and we help others reach their goals off the field. Look for announcements in your local paper each week to see if your favorite players win the AT&T Long Distance Awards.

All you need to reach out.<sup>sm</sup>

**AT&T**

# Funny, it doesn't look like a conference center.

Now you can call a conference anywhere. Even in the middle of nowhere. How? Simply carry one of the AT&T Cards. Then all you have to do to make a conference call is find the nearest public phone and give us your AT&T card number. We'll set up the whole thing, including getting in touch with everyone you want to talk to.

It's just one of the innovative services available with the *AT&T Calling Card*, the *AT&T Corporate Calling Card*, or the *AT&T Universal Card*. For more on all the ways our cards can help you when you're on the road, call **1 800 222-0300, Ext. 289**.

## It's all in the cards.<sup>SM</sup>

# QB'S CLASH IN CLASSIC

## DISNEYLAND PIGSKIN CLASSIC PROMISES TO BE A THRILLER

By Jay Paris  
 The Orange County Register

Even Mickey Mouse and Donald Duck have to take a backseat to this pair.

Two of the nation's most proficient quarterbacks will duel today in Disneyland Pigskin Classic II at Anaheim Stadium.

Brigham Young University's Ty Detmer, the 1990 Heisman Trophy winner, and Florida State University's talented Casey Weldon face off for a shootout in the Orange County twilight.

And both teams are coming off prosperous 1990 seasons, too.

Florida State, this pre-season's No. 1 team in some 1990 polls, won its final six games last season to finish 10-2.

And despite losing its last two games, BYU ended with a 10-3 record and collected another Western Athletic Conference championship trophy.

Detmer, BYU's gifted quarterback, enjoyed a season others can only dream about. The 6-foot, 175-pounder threw for 5,188 yards to set the NCAA single-season record.

Detmer, the slinger from San Antonio, needs just 446 yards to set the NCAA career

mark. Detmer averaged nearly 450 passing yards a game in 1990.

Weldon looks around the NCAA and sees only one other returning quarterback with a better 1990 efficiency rating. And it's his counterpart, Detmer.

The scrambling Weldon, who loves throwing on the run, took over as the Seminoles' No. 1 quarterback in the second quarter of the Auburn game.

Weldon's 244-yard passing performance was overshadowed by Auburn's Jim Von Wyl's game-winning field goal with two seconds remaining.

But Weldon's showing was a preview of good things to come. With a winning demeanor which oozes with confidence, Weldon led Florida State to six straight victories as a starter.

"He reminds me of Joe Montana," said Edgar Bennett, Florida State's standout fullback. "He has that positive attitude and is the type of person who takes charge."

For Detmer, some wonder what he can do for an encore. The first thing was to get healthy for his final season at Provo.

In the Cougars' season-ending 65-14 loss to Texas A&M at the Holiday Bowl in San Diego, both of Detmer's shoulders were separated in violent sacks. His right (throwing) shoulder was operated on.

And although he missed spring workouts, Detmer proclaims he is fit and ready to cap his stellar collegiate career with another big season.

"Everything has gone really well and the shoulder is back where it needs to be," Detmer said. "I've progressed along a lot quicker than people might think."

But there was no underplaying Detmer's injury. When Detmer

went down, Provo football fans' ears perked up as if the Mormon Tabernacle Choir had hit the wrong note.

"It really wasn't as big as an operation as everybody thought it was," he said.

Not nearly as big of a deal as Detmer removing himself from Utah's list of eligible bachelors. He married this summer and got some future practice for his own children by coaching a Lindon, Utah Little League squad to a second-place finish.

Just don't tell Florida State which team Detmer coached — the Yankees.

With their winning ways, the Seminoles from the Deep South are becoming as popular as iced tea down there. And one reason is an exciting offense led by the steady Weldon.

Weldon ended his junior season in the inaugural Blockbuster Bowl by busting a stingy Penn State defense for 248 yards and a 24-17 triumph.

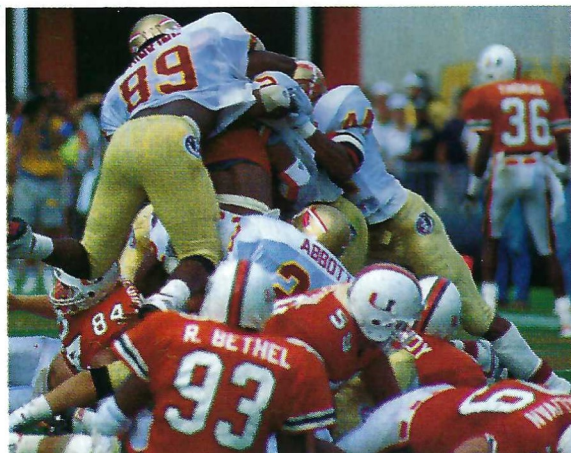

He finished the season with a 152.7 passing efficiency rating, just a few notches below Detmer's 155.9. Weldon passed for 1,600 yards and 12 touchdowns with four interceptions.

So keep an eye on Detmer and Weldon today when Southern California football fans and national television audiences are treated to two top-notch quarterbacks.

Detmer and Weldon are their teams, on-field leaders. And pacing the sidelines are two of the country's best known — and successful — college coaches.

LaVell Edwards is embarking on his 20th season at BYU. He is college football's third winningest active coach (175-59-1; .747 percent), trailing only Nebraska's Tom Osborne and Penn State's Joe Paterno.

And Edwards will need his experience to overcome the Cougars lack of it. Although for the first time since 1978 a Heisman Trophy winner returns, four of the five BYU offensive linemen have departed, as did all three of its down defensive linemen.

FSU's swarming defense (in white) will be tested by Heisman-trophy winner Detmer (pictured above, right).

Mix that with the school's toughest opening three-game schedule ever — Florida State, UCLA and Penn State — and it's easy to understand Edwards' concern.

"We are quite inexperienced in some areas, but we got some good young players," Edwards said. "But it's a tough way to break them in. It's a tall order going against Florida State. They are very good, obviously, because they've been ranked No. 1 in the country.

"They've got virtually everybody back from last year, they are an experienced team, and they finished last year playing exceptionally well. I don't see any weaknesses at all."

And that includes Bobby Bowden, the Seminoles coach and the toast of Tallahassee.

In his 15 years at Florida State, Bowden has resurrected a football program which was lower than a swamp rock.

Last season, Bowden again displayed his coaching prowess by taking a team with just five senior starters to its fourth straight top-four finish.

With 205 career victories, Bowden trails only Paterno (229) among active college coaches. And he's No. 8 on the all-time victories list.

And Bowden shines brightest in bowl games, where he is 10-3-1. The Seminoles have participated in nine consecutive bowl games without a loss, winning six in a row. A bowl triumph this season ties Bowden with UCLA's Terry Donahue for the NCAA record of seven straight.

And Bowden's gambling coaching style makes Florida State a pleasure to watch.

"It's very exciting and fun here," said Bennett, the Seminoles' All-American candidate fullback. "He's one of those daring type of coaches who likes to catch people off-guard.

Some of Bowden's plays look like they were drawn in the dirt at a pickup game. Flea-flickers, end-arounds, laterals and double-reverses. Bowden's playbook is full of them.

BYU's defense will probably get its fill of the versatile Bennett. The 6-1, 222-pounder can catch, block and run. And he does all three well.

His 395 yards on 35 receptions was second highest on the team. He also ran for 302 yards on 61 carries and his explosive blocks open holes for tailback Amp Lee, the Blockbuster Bowl MVP.

BYU's Peter Tuipulotu (32) will search for daylight while FSU's QB Casey Weldon (below) will gun on the run.

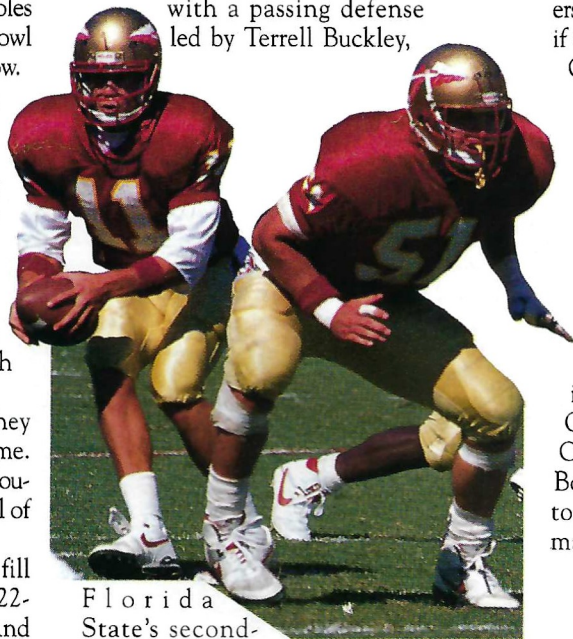

"Last year, I think I surprised some people," Bennett said. "This year, I won't be as much of a surprise."

Bennett, who is making his first trip to Southern California, said he is anxious about playing in Disneyland Pigskin Classic II. He thinks it's the Seminoles' first step on the road to the national championship.

"I'm really looking forward to it and I think it will be a really big game. It's the first game of the year against a great team with the Heisman Trophy winner.

"This will give us a chance to show a lot of people Florida State is a team to be reckoned with."

Detmer will have to contend with a passing defense led by Terrell Buckley,

Florida State's second-team, All-American cornerback.

"Our secondary is already licking its chops," Bennett said.

Buckley, a junior who also excels at returning punts, scored four touchdowns last season — two on intercep-

tions and two on punt returns. His six interceptions ranked 14th in the nation, and he set a school record for most interception-return yardage, 219.

The 5-10, 175-pound Buckley needs six interceptions to become Florida State's all-time leader.

Another Seminoles' defender Detmer will become familiar with is sophomore inside linebacker Marvin Jones.

Jones, quick and powerful at 6-2, 220 pounds, had quite an impact as a freshman, recording 133 tackles.

"He gets to the ball in a hurry and when he gets there, he's in a bad mood," said Miami coach Dennis Erickson.

Erickson was equally grumpy when BYU defeated Miami last season, 28-21. BYU's impressive showing wasn't lost on Bowden, whose Seminoles were later defeated by Miami, 31-22.

Bowden said he quickly accepted the Disneyland Pigskin Bowl II invitation. Then he considered the opponent.

"I must be crazy after seeing what they did to Miami last year," Bowden said.

"But if you're ever going to play in one of these pre-season games, you want to do it when you've got some experienced players returning. I'd say this would be the year if there ever was one."

Other key players to watch in today's game are: Florida State's Kevin Mancini, offensive tackle; Kirk Carruthers, inside linebacker; Mike Morris, offensive guard.

For BYU: Bryan May, offensive guard; Peter Tuipulotu, fullback; Rocky Biegel, linebacker; Tony Crutchfield and Derwin Gray, defensive backs.

Disneyland Pigskin Classic II is just one event on the Orange County Sports Association calendar. Other events include the Freedom Bowl, men's and women's basketball tournaments, USA World Volleyball matches, golf tournaments, holiday gala and a national high-school band festival.

The OCSA is also involved in a fund-raising drive to build the Orange County Sports Hall of Fame at Anaheim Stadium.

# MOMENTUM BUILDS AS OCSA MATURES

It's amazing what this organization has accomplished in the last year and a half," said Jim Murray, past president of the Orange County Sports Association.

"We have gone from a one-football-game organizing body to an entity that has already had significant impact on the Orange County community economically and from the standpoint of bringing events into the area," he added.

Murray was referring to the fact that just over a year ago, the Orange County Sports Association came into being with the advent of the Disneyland Pigskin Classic.

Previously, the organization was merely Freedom Bowl, Inc. and produced the December football game.

A year ago January, the OCSA was formed to administer both the Freedom Bowl and the Disneyland Pigskin Classic. With the new body came a new charge: help bring other major sporting events into the county and conduct many of those activities under the banner of the OCSA.

Jack Lindquist, president of Disneyland, became president of the OCSA and brought a new enthusiasm to the board room.

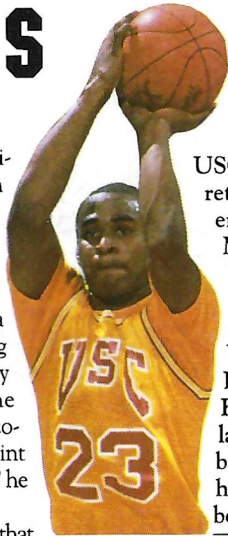

"Some of our people had been a little discouraged," Lindquist said, "but the new focus of the organization and a new management team headed by Don Andersen and Rob Halvaks have turned this group around 180 degrees."

In the past year, the OCSA has seen its membership grow to more than 350 corporations and individuals whose membership fees entitle them to tickets to both football games.

And more events are in the offing.

Anaheim Stadium General Manager Greg Smith speaks on the construction of the new Anaheim Arena, which will be completed in 1993, at an OCSA "Newsmakers" luncheon.

USC's top returning scorer, Harold Miner, brings his 23.5 scoring average to UCI for the Freedom Bowl/Disneyland Basketball Classic held December 6-7.

"We are seeking to turn the Freedom Bowl/Disneyland Basketball Classic into a major college tournament," Andersen said recently.

"We plan to move the event into the new Anaheim Arena when it is completed in 1993 and hope to add some college basketball doubleheaders to our list of activities under the OCSA banner."

USC and Houston have been added to the field for this year's basketball tournament which will be held Dec. 6-7 at UC Irvine. Kent State and UCI will fill out the four-team field.

"We are looking forward to the day when the OCSA will help host the NCAA Final Four basketball tournament in the county," Andersen added.

The OCSA is also working on bringing Davis Cup tennis, World Cup soccer activities, a college baseball tournament and professional golf events to the county in the future.

"We think this would be an ideal spot for a Senior Tour golf tournament," said Murray, "and the OCSA is the logical body to make it happen."

Other items on the OCSA plate include serving as the administrative arm for the Orange County Sports Hall of Fame,

## FIRST AMERICAN TITLE INSURANCE SPONSORS MOST VALUABLE PLAYER AWARDS

- A MVP will be selected from each team.
- Media covering today's game will make the MVP selection.
- An on-field awards ceremony immediately follows today's game.

Adding pageantry and flair to the Freedom Bowl VII festivities, the National High School Music Festival captivates audiences with their selected bands from around the country. The bands perform in a variety of competitions plus pregame and halftime activities.

running two charity golf tournaments annually and conducting monthly "Newsmakers" luncheons for its membership.

"We think we are on the right track insofar as making this organization a viable entity," Andersen noted. "We need to continue to expand our membership base while adding prestige events on a regular basis."

The two football games will continue to be the flagships for the OCSA.

Andersen concluded, "With Disneyland's long-term commitment to the Pigskin Classic and a title-sponsor not far away for the Freedom Bowl, we can assure the Orange County football fan of two outstanding college games each year."

(Left to right) Colorado St. Head Coach Earle Bruce, OCSA President Jack Lindquist and Oregon Head Coach Rich Brooks, get together at the American Commerce National Bank Freedom Bowl Golf Challenge banquet held at the Alta Vista Country Club.

## COACHES' RETIREMENT TRUST RECEIVES SUPPORT FROM CLASSIC FOR SECOND YEAR

**T**he improvement of the coaching profession and the sport of football always has been among the top priorities of the American Football Coaches Association since it was founded in 1922.

With that goal as the primary motivating factor, the AFCA in the late 1980s successfully implemented a retirement plan that would make the profession more attractive to young coaches just beginning their careers and encourage veteran coaches unable to build a consistent retirement plan because of frequent job changes to remain in the profession.

The Disneyland Pigskin Classic is doing its part to assist the AFCA by supporting the American Football Coaches Retirement Trust, a plan designed exclusively for the college football coaching profession. For the second consecutive year, more than \$400,000 of the proceeds from today's game will be placed in the trust (AFCRT). The contribution, combined with personal contributions from individuals enrolled in the plan, will help provide security at retirement for hundreds of coaches and their families.

LaVell Edwards, head football coach at Brigham Young University and a past president of the AFCA, calls the creation of AFCRT "one of the most significant events in the history of our organization."

AFCA executive director Charles McClendon has handled details concerning AFCRT since its inception. "Our retirement plan is just beginning to blossom," he says. "We are grateful for the support of university presidents and athletic directors from all over the country who have been with us from the start of this project. They are the reason the Disneyland Pigskin Classic came into existence.

"The money that AFCRT receives from today's game adds credibility to the retirement plan. It certainly serves as an incentive for our coaches to become part of the program." With continued growth projected into the 1990s, the plan eventually is expected to involve more than 1,500 coaches from 500 institutions.

AFCRT is a notable example of the benefits of membership the founders of the

**"The Boys Club helped take me from the outfield to the oil field!"**

C.J. "Pete" Silas  
Chairman & Chief Executive Officer,  
Phillips Petroleum Company

"In the neighborhood where I grew up, there weren't many places for a kid to spend his time. Except maybe the streets. So it's a good thing there was a Boys Club down the road. Our Club was a place where we learned something far more important than how to run the bases—how to run our lives. You see, a Boys Club doesn't

stop at teaching young people good sportsmanship. Today, they can learn computer skills and get help with college and career planning—the kind of help that can turn a star in the outfield into a star in any field he chooses!

Take it from me, a Boys Club helps a kid to be a leader. And that's a lesson I never forgot!"

# Reading, writing, and responsibility.

An introduction to common sense,  
personal responsibility and having a good time.

Much of what's learned in college can be used throughout a student's lifetime. Learning to be a responsible adult is one of the most important of those lessons.

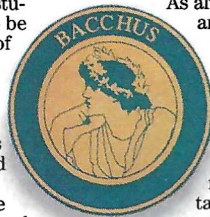

Anheuser-Busch is committed to developing and supporting grass roots programs that are designed to encourage responsible decision-making on college campuses by students of legal drinking age.

"The Buddy System" is one example. It's an awareness program that encourages you to help friends and strangers avoid drunk driving and other abusive drinking situations. If you can keep someone from drinking too much, or keep someone who's had too much to drink from driving, you'll be the best buddy anybody can have.

Anheuser-Busch is also a sponsor of the BACCHUS program, set

up on over 430 campuses nationwide. BACCHUS gives you the chance to make personal and informed decisions about alcohol, as well as the opportunity to play a major role in encouraging other students to think about, talk about

and develop responsible behavior.

As always, Anheuser-Busch and BACCHUS promote as part of the decisions a respect for state laws and campus policies regarding alcohol consumption.

In BACCHUS, there are plenty of peers, but no pressure. Just plain talk in a relaxed environment. If there isn't a chapter on your campus, consider starting one. If there is, get involved. Because students like you can make the best teachers.

Obviously, there's no substitute for the safe and responsible drinking practices promoted by these programs. And they're practices that may someday make our Alert Cab program unnecessary. But, for the time being, and for those faced with a possible drunk driving situation, Alert Cab provides taxicab rides home from participating bars and restaurants.

If you need a ride, just let your bartender or server know. You'll be picked up by a cab. And participating Alert Cab bars, restaurants and cab companies may even pick up some or all of the fare.

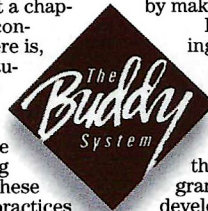

Perhaps the most important way we help meet the demand for information about responsible use of our products is through our sponsorship of National Collegiate Alcohol Awareness Week (NCAAW),

coming to your school each October.

Featuring all kinds of enjoyable activities and educational presentations, NCAAW is about the health, safety and social issues you face when making decisions about drinking. It's about obeying state laws and campus policies and avoiding abusive drinking situations. And it's about adding to your margin of safety, and that of everyone else, by making responsible decisions.

It's also about concentrating on your reading, writing and responsibility. And coming away with something you can use in the real world.

These efforts represent the kind of grass roots programs that Anheuser-Busch has developed, or is supporting, to encourage responsible drinking by adult collegians. For more information, contact BACCHUS of the U.S., Inc., P.O. Box 100430, Denver, Colorado 80210; NCAAW, Fort Hays State University, 600 Park Street, Hays, Kansas 67601-4099; or your local Anheuser-Busch wholesaler.

FRIENDS KNOW WHEN  
TO SAY WHEN™

AFCA — among them Amos Alonzo Stagg and John Heisman — envisioned when they formed the Association. From an attendance of 43 coaches at the first informal meeting, the AFCA has grown to more than 6,000 members.

Organized primarily for college football coaches, the AFCA also has member coaches from the high school, junior college and professional ranks. The membership roster also lists coaches from Mexico, Canada, England, Germany, Finland, Russia and Japan.

The Association is involved in numerous programs which promote the integrity of the profession and the development of the game. Three yearly publications and numerous newsletters keep the membership abreast of the most recent developments concerning rules changes and proposals, proper coaching methods and innovations in techniques and coaching philosophy. Also included are reports of Association business conducted by the Board of Trustees and AFCA committees.

The Association works closely with the NCAA, NACDA, NAIA, National Football Foundation and Hall of Fame as well as other organizations involved in collegiate and high school athletics.

The Gerrits Foundation, formed in 1986, recognizes and converts achievement on the athletic playing field into direct benefits for students not involved in intercollegiate athletics through a \$500,000 scholarship program.

The institution ranked No. 1 in the final USA TODAY Top 25 Coaches' Poll each January receives a full four-year academic scholarship, which is given by the Gerrits Foundation to an incoming freshman chosen by school representatives. The Foundation also provides support for other AFCA-related programs.

One of the primary reasons the Association was formed was to promote safety. An annual injury survey begun by the AFCA in the 1930s has provided valuable data and has led to a remarkable reduction of injuries in the sport through the years. The NCAA Rules Committee often follows recommendations made by the AFCA.

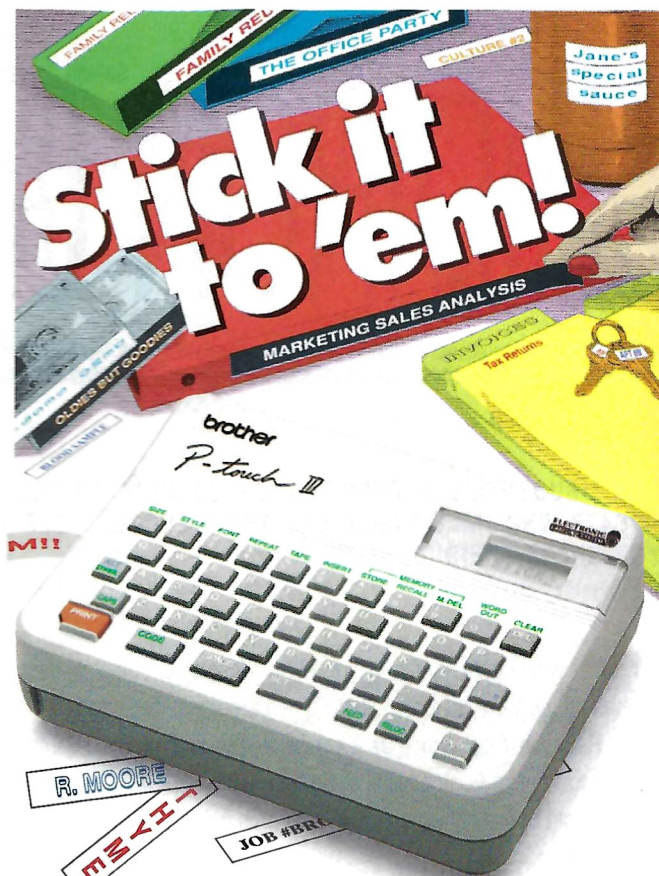

The Association sets forth strong ethical and moral codes. The AFCA has established a code of ethics that governs all aspects of coaching. A member who does not follow the code comes before the AFCA Ethics Committee, which is composed of his peers.

An annual convention each January provides the membership a national forum for the exchange of ideas that leads to the betterment of the sport and profession.

The Kodak Coach of the Year program honors coaches who have been recognized for their superior coaching performances in voting by their fellow coaches. Twenty regional and four national winners are honored at the annual Kodak Coach of the Year Banquet held the final evening of the convention. In addition to the Kodak Coach of the Year program, AFCA committees select Kodak All-America teams in four divisions.

The Amos Alonzo Stagg Award and the Tuss McLaughry Award, two of the most prestigious awards given to collegiate football, are sponsored by the AFCA and presented to deserving recipients during the convention. The Stagg Award is given for contributions to college football and the McLaughry Award is given for distinguished service to mankind.

The AFCA has had three full-time executive directors: DeOrmond "Tuss" McLaughry (1960-65), William D. "Bill" Murray (1966-81) and the current executive director, Charles Y. McClendon.

## P-touch III ELECTRONIC LABELING SYSTEM

**The fastest, easiest way to create adhesive labels for endless uses in the home or office.**

Just imagine...it fits in the palm of your hand, weighs less than a pound and has unlimited uses.

It creates adhesive labels in 4 styles, 5 sizes and in over 25 available colors...vertically or horizontally.

You simply enter the information on the typewriter-style keyboard, press "print" and out come your labels.

It features an LCD display so you can edit out errors before printing. Saves time and work.

Stick it to 'em with the P-Touch.

**Available At:  
Sears, Staples, Office Depot  
and Sharper Image**

**brother** We're at your side.

# GRIDIRON GREATS: ROCK

THE PRUDENTIAL PRESENTS A SHORT QUIZ ON COLLEGE FOOTBALL GREATS WHO HAVE CONTINUED THEIR SUCCESS OFF THE FIELD. CAN YOU GUESS THEIR IDENTITIES?

① After winning the Outland Trophy in 1962 as a senior lineman at the University of Minnesota, he went on to a Hall of Fame career with the Kansas City Chiefs. He was third in the Heisman Trophy race as a senior, a lofty position for an outside linebacker. He was elected to the Pro Football Hall of Fame in 1983 after a career which saw him named All-Pro for eight consecutive years. He now runs a successful restaurant in Kansas City which has his name.

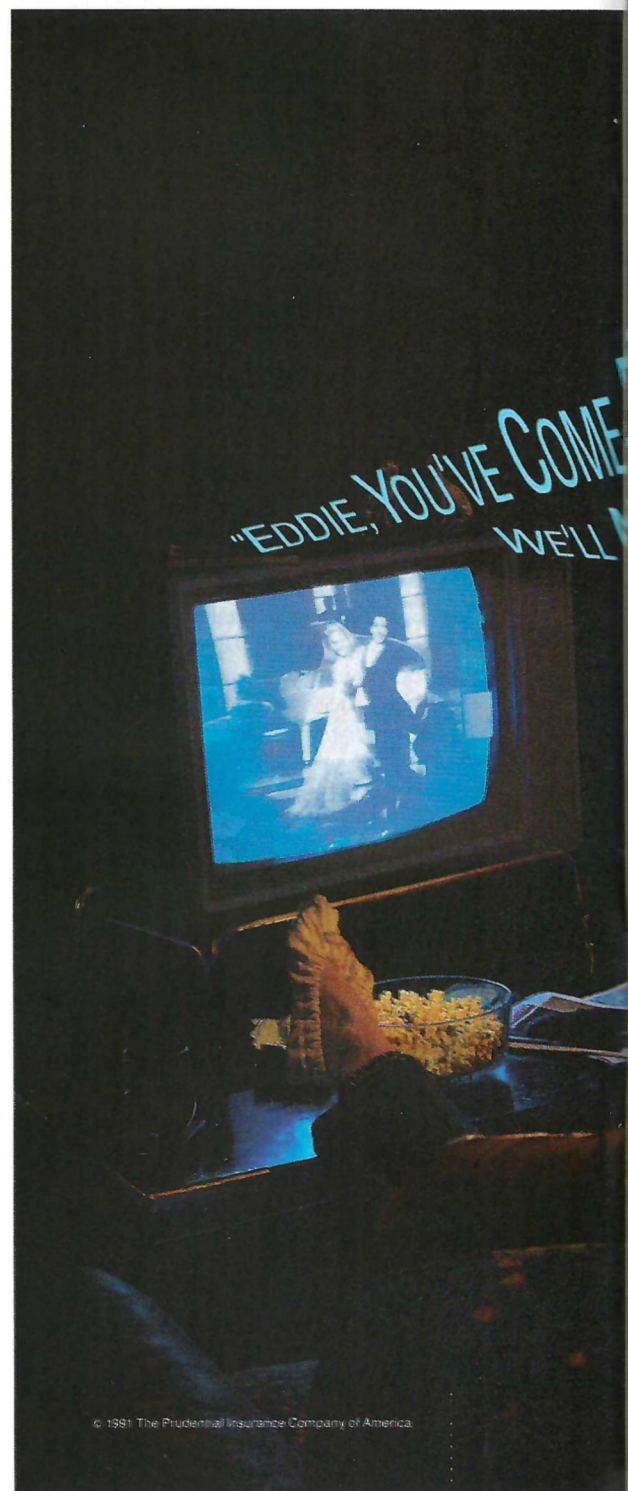

② He might have been the last of the great two-way college players, being named to Purdue's all-time team as both a running back and defensive halfback. He appears throughout the Boilermakers' record book and stories about him have grown as the years roll on, based on the facts of an amazing college career. A consensus All-American in 1967 and 1968, he was selected by Philadelphia in the first round of the NFL draft and went on to a six-year pro career with the Eagles and Kansas City Chiefs. He now works with children in Philadelphia.

③ His picture belongs in the dictionary as a means of defining the position of linebacker. Besides being named to both the college and pro Halls of Fame, the award given to the outstanding college linebacker is appropriately named for him. His last year in college saw his team allow just 96 points in 10 games as Illinois won the Rose Bowl with a defensive-oriented squad which revolved around him. Now he has become a star of movies, television and commercials.

④ One of three No. 44's to earn All-America honors as a running back at Syracuse, he was the first Orangeman to win the postseason honor three times. He led the nation in all-purpose yardage in 1965, and was a first round draft choice of the Denver Broncos, with whom he led the league in rushing in 1970 and 1971. He now owns an automobile dealership in Seattle.

## ANSWERS:

1. Bobby Bell 2. Leroy Keyes 3. Dick Butkus 4. Floyd Little

# SOLID<sup>®</sup> IN THE REAL WORLD

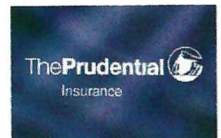

**IN THE REAL WORLD, IF YOU DON'T TAKE THE RIGHT STEPS FOR YOUR FUTURE, YOU MIGHT NOT GET ANYWHERE.**

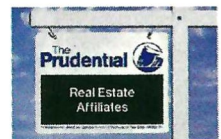

In what promises to be a turbulent decade ahead, a lot of people are going to need the knowledge, experience and financial services The Prudential provides to help make their dreams come true.

Take insurance, for example. In the real world, choosing the right insurance policy is often difficult, because insurance terminology can be confusing. That's why our agents will answer as many questions as you have, as often as you like, in simple terms you can understand.

If you're seeking the right investments for the future, talk to our people at Prudential Securities. We believe that even in difficult times, there's still money to be made. Through keen insight and thoughtful analysis, we'll offer you investment alternatives that can help bring you closer to the financial security you're looking for.

And when it comes to buying or selling your home, you can get expert help from The Prudential Real Estate Affiliates. With our nationwide network of professionals specially qualified to Prudential's standards, we can do everything possible to address your real estate needs.

So, if you're looking for the right steps to choreograph your future, make your move to the companies of The Prudential and build your future on The Rock<sup>®</sup>

# The first PS/2 for people with window offices.

## INTRODUCING A PS/2® LAPTOP THAT PERFORMS LIKE A DESKTOP PS/2.

For millions of people, there's a whole world of business where the window offices have wings and your lap is your desk. It's as far from working in an office as you can get, but it's every bit as demanding. That's why IBM has created its most personal computer ever—the Personal System/2® Laptop 40 SX.

Although it's just 7.7 pounds, the PS/2 Laptop still lets you carry a lot of weight. It has the same Intel 386SX™ processor you'll find in best-selling desktop computers, so it's powerful enough to let you create or plan right on site. It also has a 3.5" diskette drive like the one in your office, and the 60MB hard drive can store all the information you'll need to close the deal or make the presentation.

Instead of compromising comfort,

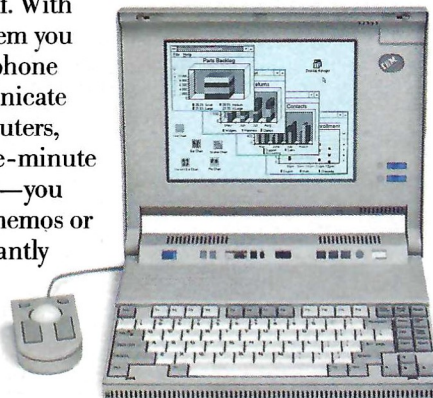

the PS/2 Laptop has a full-size keyboard spaced and arranged the same way as a desktop PS/2's. And the large, easy-to-read, 10"-diagonal screen delivers VGA-quality graphics with amazing clarity and contrast, so it's easy on your eyes.

It even comes with a numeric keypad you can plug in for serious number crunching and a special feature suspends power when the screen is closed and returns to full power when you open it, letting you resume work right where you left off. With a Data/Fax Modem you can plug into a phone line and communicate with other computers, access up-to-the-minute facts and figures—you can even write memos or place orders instantly and fax them to the home office.

And the PS/2 Laptop comes with something no laptop should be without—an international warranty\* backed by thousands of Authorized Remarketers worldwide, so you're never far away from service and support.

To find out more, contact your IBM Authorized Remarketer or IBM marketing representative. You'll see why with the new PS/2 Laptop, you can take your business wherever business takes you.

How're you going to do it?  
PS/2 it!

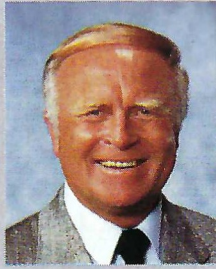

\*Available only in the countries in which this product is sold by IBM and IBM Authorized Remarketers. Subject to the terms of the limited warranty provided when purchased. Proof of original purchase may be required. IBM, Personal System/2 and PS/2 are registered trademarks of International Business Machines Corporation. 386SX is a trademark of Intel Corp. © 1991 IBM Corp.

## NACDA FOUNDATION PROVIDES SCHOLARSHIPS FOR TOP STUDENT-ATHLETES

The National Association of Collegiate Directors of Athletics (NACDA) Foundation has two scholarship programs to assist top student-athletes with postgraduate studies.

The NACDA/Disney Scholar-Athlete Awards program annually provides 10 of the nation's top student-athletes with \$5,000 grants, a total of \$50,000 in scholarships funded by the Walt Disney Company. The Foundation additionally funds four \$5,000 grants, a total of \$20,000, for one member of each team participating in the Kickoff Classic and Disneyland Pigskin Classic.

NACDA recently celebrated 26 years of serving the athletics administration community at the Association's annual Convention in San Diego. An important highlight of those 26 years is annual sponsorship of the Disneyland Pigskin Classic, now in its second year.

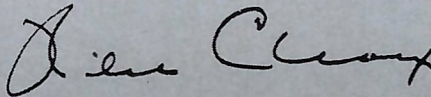

In addition to being one of the biggest collegiate football events of the year, the Disneyland Pigskin Classic helps NACDA serve its more than 3,200 members at more than 1,500 institutions in all divisions of collegiate competition. Some proceeds from the game enable the NACDA Foundation to provide educational opportunities through workshops, seminars and clinics. Workshops with the National Association of Intercollegiate Athletics (NAIA), National Athletic Trainers Association (NATA), insurance clinics, time management seminars, drug education seminars and internship opportunities for aspiring collegiate athletic administrators are all part of the Foundation's services.

We extend our best wishes to the BYU Cougars and Florida State Seminoles for a successful season, both on the field and in the classroom.

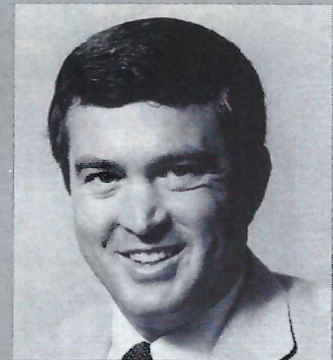

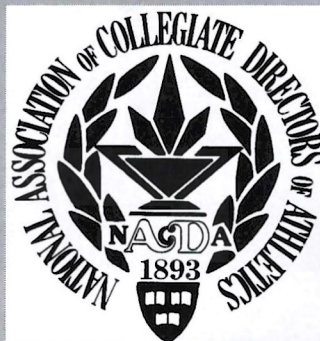

Hope you enjoy the Disneyland Pigskin Classic II as well as the entire 1991 college football campaign.

# HOW SHARP ARE YOU?

- 1 What first round draft choice in 1991 rushed for 217 yards, including a 78-yard TD run, and claimed MVP honors for his team in the 31-31 tie between Colorado and Tennessee in the first Disneyland Pigskin Classic?
- 2 Which BYU quarterback has the highest career completion percentage (65.2%) in school history? (He also has the highest single-season percentage at 71.3%)
  - A) Jim McMahon
  - B) Robbie Bosco
  - C) Virgil Carter
  - D) Steve Young
  - E) Marc Wilson
- 3 Which Florida State receiver holds the record for most career receiving yards (3,598)?
  - A) Ron Sellers
  - B) Fred Biletnikoff
  - C) Hassan Jones
  - D) Lawrence Dawsey
  - E) Jessie Hester
- 4 How many players who appeared in the 1990 Disneyland Pigskin Classic were drafted in the first three rounds of the 1991 NFL Draft?
- 5 Who is the only Florida State quarterback to pass for more than 500 yards in a single game?
  - A) Peter Tom Willis
  - B) Gary Huff
  - C) Danny McManus
  - D) Bill Cappleman
- 6 In his career, Ty Detmer has thrown for 300 yards in a game 24 consecutive times, an NCAA record. Whose record of 18 consecutive games did Detmer surpass in 1990? (Clue: A former BYU quarterback)
- 7 Which former Seminole tops the Florida State career rushing list with 3,769 yards?
  - A) Dexter Carter
  - B) Greg Allen
  - C) Larry Key
  - D) Sammie Smith
- 8 Ty Detmer's career passing efficiency rating of 160.7 puts him in excellent position to break the all-time rating of 156.9. What ex-BYU quarterback currently holds that all-time mark?
- 9 Who scored the first touchdown in the inaugural Disneyland Pigskin Classic?
  - A) Chuck Webb
  - B) Darian Hagan
  - C) Mike Pritchard
  - D) Carl Pickens
  - E) Eric Bieniemy
- 10 Name the All-WAC BYU lineman who was originally drafted by the USFL's Philadelphia Stars and later went on to earn a Super Bowl ring in Super Bowl XXV with the New York Giants.
- 11 Which quarterback holds the NCAA record for career passing yards?
  - A) Jim McMahon (BYU)
  - B) Kevin Sweeney (Fresno St.)
  - C) Todd Santos (San Diego St.)
  - D) Doug Flutie (Boston College)
  - E) John Elway (Stanford)
- 12 In 1990, Lawrence Dawsey became only the third receiver in Florida State history to earn All-American honors. Can you name the other two?
- 13 Name the only alumnus of either BYU or Florida State to win a national rushing title.
  - A) Todd Christensen
  - B) Sammie Smith
  - C) Pete VanValkenburg
  - D) Greg Allen
  - E) Marion Butts
- 14 What kicker holds the NCAA record for most points scored in a career?
  - A) Jason Chaffetz (BYU)
  - B) Derek Schmidt (Florida St.)
  - C) John Lee (UCLA)
  - D) Kurt Gunther (BYU)
  - E) Luis Zendejas (Arizona St.)
- 15 What Florida State great earned MVP honors in Super Bowl VI and became the first Seminole elected to the Pro Football Hall of Fame?

11 C) TODD SANTOS  
 12 RON SELLERS AND FRED BILETNIKOFF  
 13 C) BYU'S PETE VANVALKENBURG IN 1972  
 14 B) DEREK SCHMIDT  
 15 FRED BILETNIKOFF

6 D) BILL CAPPLEMAN  
 7 D) SAMMIE SMITH  
 8 D) GREG ALLEN  
 9 C) MIKE PRITCHARD  
 10 E) ERIC BIENIEMY

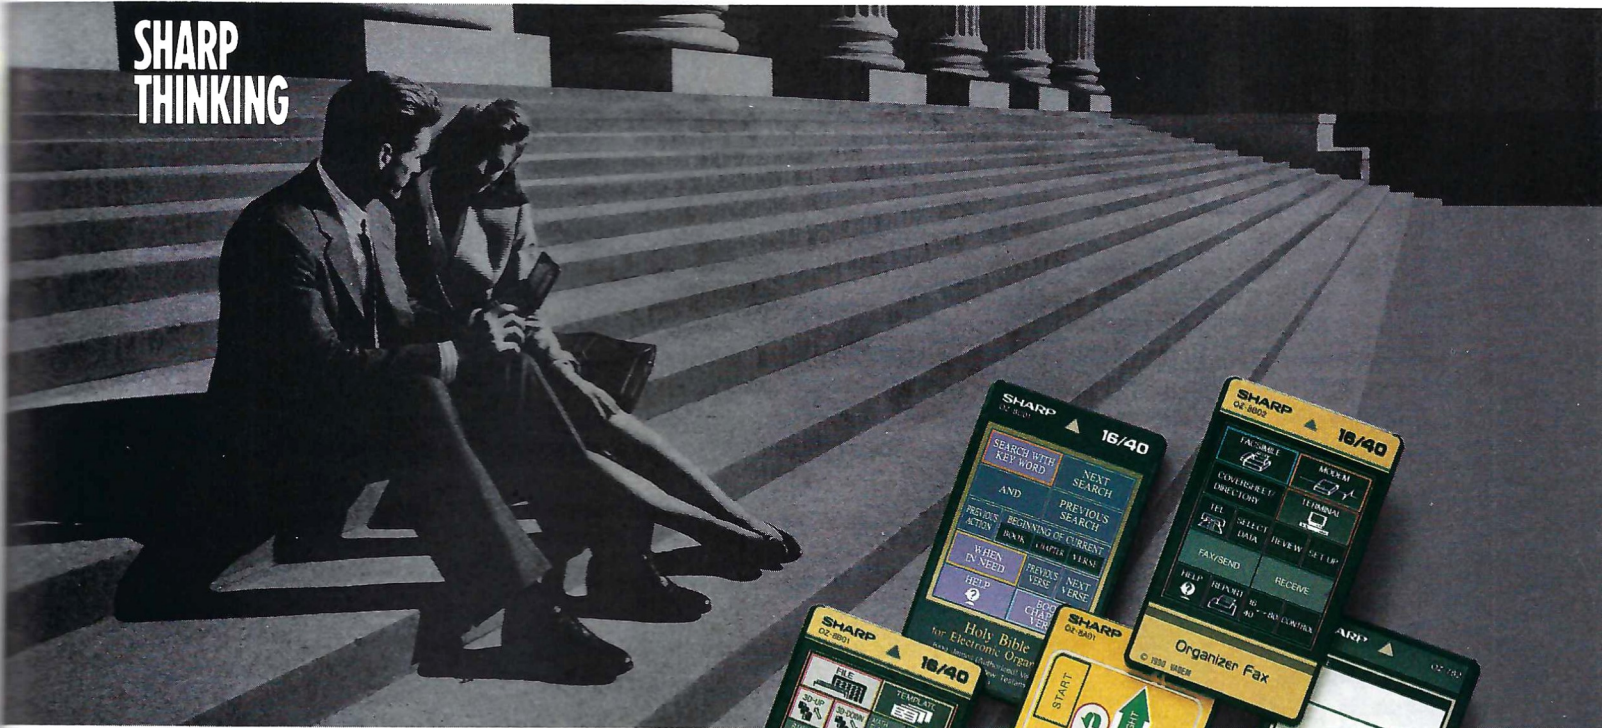

11 E) JOHN ELWAY  
 12 C) PETE VANVALKENBURG AND GREG ALLEN

# BRIGHAM YOUNG UNIVERSITY

**B**righam Young University, the largest private, church-related university in the United States, continues to be guided by the vision of its founder. During the formative year of 1876, he appointed Karl G. Maeser as principal of the Academy, as it was then called. President Young's admonition to the new principal was plainly put: "I want you to remember that you ought not to teach even the alphabet or the multiplication tables without the spirit of God. That is all. God bless you."

BYU, directed by a board of trustees, led by the president of the Church of Jesus Christ of Latter-day Saints, remains steadfast to its founding vision, which combines all reasoned and revealed learning.

An honor code of Christian living is adhered to by the 27,000 full-time students on the Provo campus and the 2,000 students at the Hawaii campus.

BYU offers approximately 145 undergraduate subject areas in 12 schools and colleges, along with an outstanding continuing education program. Master's degrees are offered in more than 100 disciplines; doctoral degrees are available in 56 subjects.

Acceptance of BYU students in dental schools last year was 98 percent, and 73 percent of applicants for medical schools were accepted. The university also has a laudable record of placing graduates as Rhodes Scholars, Merit Scholars, and law clerks in the United States Supreme Court.

The 638-acre Provo campus lies below the peaks of the Wasatch Mountains, overlooking Utah Lake. Mt. Timpanogos (11,750 feet above sea level) graces the immediate northern skyline, while Mt. Nebo (11,877 feet) defines the view to the south.

Obviously, Utah's claim to "The Greatest Snow on Earth" provides winter entertainment for BYU students.

More than 450 academic, residence and service buildings are situated on a campus nationally acclaimed for its landscaping and cleanliness.

The university also operates an 800-acre farm, a motion picture studio, a radio and television station, a mountaintop observatory, and an art museum is currently under construction.

The Harold B. Lee Library contains more than two million volumes, together with numerous special collections and government publications. The J. Reuben Lark Law School Library features some of the nation's most technically advanced research and retrieval systems.

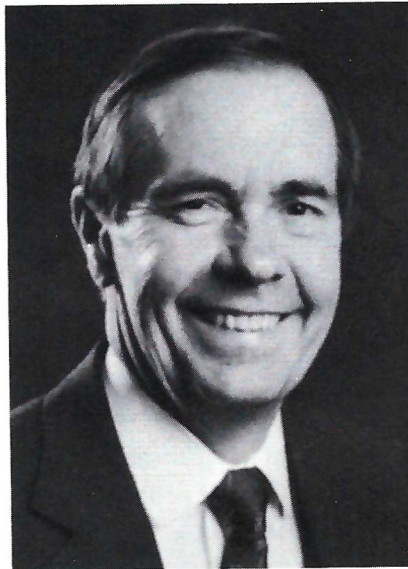

More than 70 percent of the student body comes from outside Utah, representing more than 80 foreign countries. All major races and religions are represented on campus. More than 12,000 students have served full-time missions for the LDS Church throughout the world.

In addition to the Utah and Hawaii campuses, BYU maintains Study Abroad programs in China, Austria, England, France, Italy, Israel, Canada, Mexico and Brazil.

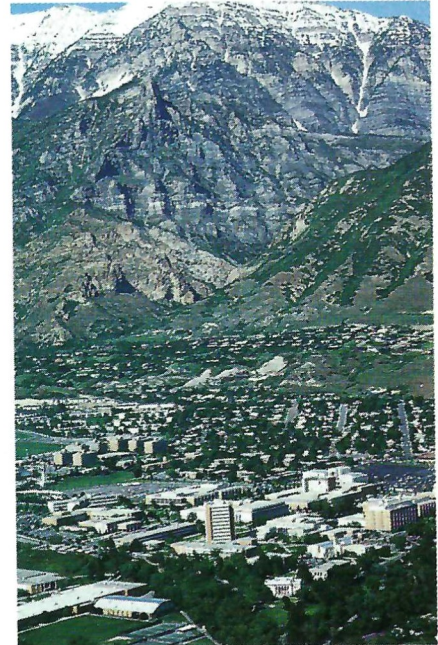

Sports activities, devotional assemblies and concerts are held in the 23,000-seat Marriott Center, while the 65,000-seat football stadium is filled for sports and for the July 4 Freedom Festival celebration.

More than 14,000 students participate in 65 different intramural sports, and BYU has a dozen musical and dance groups—including the Young Ambassadors, the Ballroom Dance Company and the Folk Dance Ensemble—which regularly tour the United States and overseas.

As a sign at the entrance to BYU says: "The world is our campus."

Rex E. Lee, BYU President

BYU Campus

## QUICK FACTS

**Location:** Provo, Utah (85,000). Located 45 miles south of Salt Lake City.

**Enrollment:** 27,000

**Founded:** Oct. 16, 1875 by The Church of Jesus Christ of Latter-day Saints (Mormon)

**President:** Rex E. Lee.

BYU is governed by a Board of Trustees.

**Conference:** Western Athletic (WAC). Member institutions are Air Force Academy, Brigham Young, Colorado State, Hawaii, New Mexico, San Diego State, Texas-El Paso, Utah and Wyoming.

**Colors:** Royal Blue and White

**Nickname:** Cougars

**Stadium:** Cougar Stadium (65,000), 1982.

# BRIGHAM YOUNG ATHLETIC DEPARTMENT

In keeping with the tradition of excellence established by the University's academic programs, Brigham Young's athletic department has become known around the country for its successes in various sports.

BYU has finished in the Top 20 in overall national rankings for 13 of the last 20 years. The Cougars have finished in the Top 10 nine times and in the Top 5 five times. In the Western Athletic Conference the Cougars have won the all-sports title 14 consecutive years.

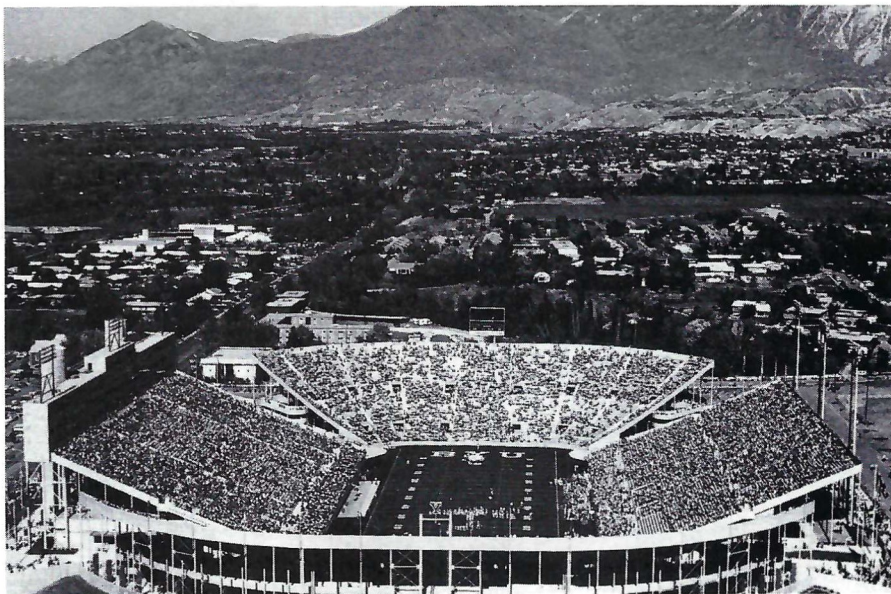

During 1990-91, the BYU women's teams finished ninth in overall national rankings while the men were 18th.

Men's teams finished fourth and fifth in golf while the football team upset top-ranked Miami and the basketball team won the WAC Tournament.

The University's athletic program boasts 11 NCAA-sanctioned sports: football, basketball, baseball, track, golf, cross country, tennis, gymnastics, swimming, wrestling and volleyball.

In addition to the football team, the golf (1981) and track (1970) teams have won national championships. Cougar basketball teams have won the NIT twice (1951, 1966) and have been ranked in the Top 20 several times. They reached the final eight in the NCAA playoffs in 1981. BYU's baseball team won 19 WAC division titles in 20 years and was ranked as high as No. 1 nationally in 1983.

Part of the success of these teams can be attributed to the fine athletic facilities at BYU. The football team plays its games in the beautiful 65,000-seat Cougar Stadium. Practices are held on the field north of the George Albert Smith Fieldhouse. The prac-

The Cougars averaged 66,000 fans last year.

tice area incorporates four full-size football fields and other workout stations. The team's locker room and training facilities are located inside Smith Fieldhouse.

The fieldhouse, which underwent major renovations during the summer, contains facilities for nearly every sport. A one-fifth-mile rubberized track surrounds three basketball courts, weight rooms, and an artificial turf practice area. The west annex of the fieldhouse is used by baseball, football, track and golf teams for indoor practice.

Attendance at BYU basketball games consistently ranks among the best in the nation. Games are played in the spacious 23,000-seat Marriott Arena, the second largest on-campus basketball arena in the country. The facility is also used for concerts, forums and other activities.

BYU's track is acclaimed by coaches and athletes as one of the finest in the nation. The NCAA track and field championships were held there in 1982 and 1989. All running and field events can be viewed from the grandstand area. An animated electronic scoreboard entertains fans and keeps athletes current with running times, splits, etc.

The BYU baseball diamond is adjacent to the Marriott Center, the football stadium and the track and field complex. Bleachers provide seating for as many as 4,000 people.

# FINALLY.

1992 Eighty Eight Royale Sedan

## Introducing the first American family car that will make you think twice about the imports.

**A**t last, an American car company has designed and executed a family car which can rival the imports in styling, performance and dependability. All new for 1992, Oldsmobile introduces the Eighty Eight Royale Sedan.

Powered by a world-class 3800 V6 engine with tuned port fuel injection, the Oldsmobile Eighty Eight produces 170 horsepower yet still delivers fuel economy of 18 mpg city/28 mpg highway.\* And its electronic four-speed automatic transmission provides smoother and quieter shifts and outstanding reliability.

Match this with the Eighty Eight's front-wheel drive and four-wheel fully independent suspension, and you've got the nimble, precise handling of a smaller car with family-car room for six.

Finally, it's an Oldsmobile. So, it's backed by the exclusive "Oldsmobile Edge", which includes a three-year/50,000-mile Bumper-to-Bumper Plus Warranty, a 30-day/1,500-mile exchange privilege and a 24-hour emergency roadside assistance package that the imports can't match at any price. So, before you think about buying an import, have a word with us.

# BRIGHAM YOUNG'S LAVELL EDWARDS

LaVell Edwards took over a program in 1972 that had averaged less than three wins a year in the school's 47 football seasons. The Cougars could claim only one Western Athletic Conference championship (1965) and had never been to a bowl game.

Since that time, however, BYU has won 175 games, 13 WAC Championships (including 10 in a row) and with last year's Holiday Bowl, has played in 15 bowl games. Honors and recognition have rolled in as the football program has risen to national prominence.

Six times in his 19 years as head coach ('72, '79, '80, '83 and '84 and '90), the 60-year-old Edwards has been selected WAC Coach of the Year, and five times he has been named Kodak District Eight Coach of the Year ('74, '77, '79, '80 and '84). The postseason games that LaVell has coached in include the Hula Bowl (twice), the Blue-Gray Classic (twice), the East-West Shrine game (four times), the Japan Bowl (twice) and the Coaches' All-America game.

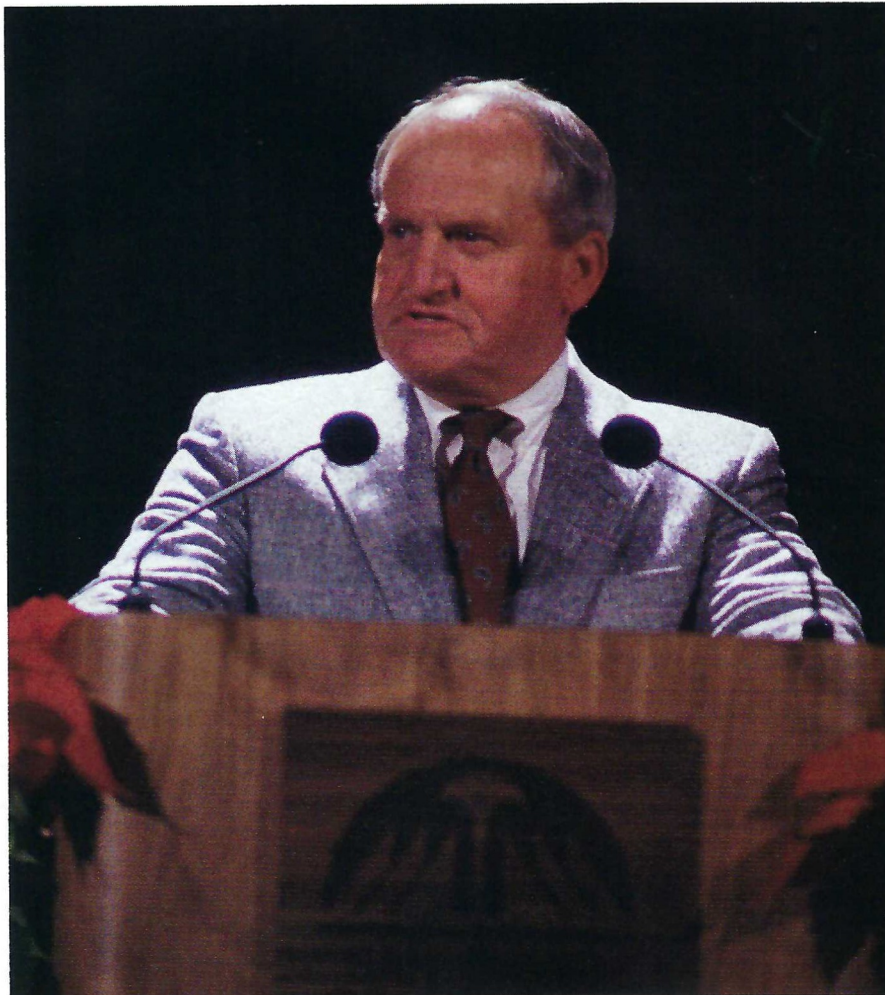

In 1988, LaVell served as president of the 5,700-member American Football Coaches Association (AFCA).

In 1984 Edwards led the Cougars to their first-ever national football championship and along the way, picked up NCAA Coach-of-the-Year honors from the American Football Coaches, the Football Writers and the Pigskin Club of Washington, D.C.

LaVell's winning percentage (.747) ranks third among active college coaches. And under Edwards, BYU has averaged more than 10 wins a season in the 1980s. In 1986 LaVell passed Frank Kush as the all-time leader in WAC coaching victories.

Having roots in Orem, Utah, LaVell was born and raised not far from BYU's stadium. He graduated from Lincoln High School and attended Utah State, where he was a three-year letterman and captain of the football team. Twice he earned all-conference honors at center for the Aggies.

At USU, he met his wife-to-be, Patti Cov-

Coach Edwards is in his 20th season as head coach at BYU.

ey. LaVell entered the Army, where he played on two service football teams (Fort Lee, Va., in 1952 and Fort Mead, Md., in 1953) as a player-coach with a 6-3 record.

From there, LaVell went into his first full-time coaching job at Granite High School in Salt Lake City, where he coached from 1954-61 before joining the BYU staff in 1962. Ten years after becoming a part of the Cougar staff, Edwards was named head coach, succeeding Tommy Hudspeth.

The football philosophy practiced by Coach Edwards is one of high-powered offense and rugged defense. Under his guidance, BYU has led the nation in passing eight times ('76, '77, '79, '80,

'81, '83, '84 and '85), in total offense five times ('79, '80, '83, '84 and '85) and in scoring ('79).

A 1952 graduate of Utah State, Edwards has added to his academic honors a master's degree from the University of Utah (1960) and an Ed.D. from BYU (1978). His attitude toward education is contagious, and several of his assistants have gone on to attain doctorate degrees.

He and Patti have three married children: Ann Edwards Cannon, a writer; John, a doctor and former member of the BYU track team; and Jim, an attorney and a former wide receiver for the Cougars.

MUTUAL BROADCASTING SYSTEM

# CHECK YOUR PRECONCEIVED NOTIONS AT THE DOORS. *The All-New Bonneville.*

If you've always believed the only way to get an agile, aero-styled, high-performance sedan was to buy small, you're in for a big surprise. It's time to forget the past, and introduce yourself to the all-new 1992 Pontiac Bonneville.<sup>®</sup>

By its engineering specifications alone, the new Bonneville shatters that myth convincingly. Under its beautifully redesigned shape lurks a potent 170 horsepower **3.8L 3800 V6** with tuned port sequential fuel injection locked onto an advanced electronic 4-speed automatic. Available **anti-lock brakes** and a precision-engineered, road-gripping sport suspension for outstanding control, stopping or steering. Available advanced **traction control** for superb power application on slippery surfaces. There's even a

**driver's-side airbag** for additional safety assurance.

That's the technical side. But to really get the feel of the new Bonneville, you've got to get behind the wheel. Notice how the solid-feeling controls react smoothly to the touch. How the full complement of analog gauges are well-defined for quick, decisive reads. How the whole cockpit is driver-oriented, and designed for performance.

And by the way, the new Bonneville is a full-fledged, **full-sized** four-door that can easily carry six adults. Just thought we'd remind you.

The all-new 1992 Bonneville. Climb in and throttle one up. Just be prepared for an attitude adjustment to take place. Very, very quickly.

# Palmolive® Softest Hands

*A Six-Part Series Saluting College Football's Greatest Receivers*

## THE FIRST PAIR OF SOFT HANDS IN COLLEGE FOOTBALL

By Bert Randolph Sugar

The forward pass is one of football's most potent weapons. It is the tandem act of two men, the passer and the receiver, the one with the strong arm and the other with the soft hands. And yet, sad to relate, its origins are shrouded somewhere in the mists of time.

There are numerous stories that supposedly pinpoint the very first forward pass, each propped up with reverential anecdotes, cut up and restitched according to the preferences of the chronicler. But the one which has gained the greatest currency was found in one of those while-you-get-your-haircut weeklies that flourished during the last decade of the 19th century.

Interestingly enough, the passer's name has been lost to the ages. But the receiver, the player with the soft hands who made it all happen, is there for all to see.

The moment that changed the face of football occurred in a game played between the University of Georgia and the University of North Carolina, back on a fine southern afternoon in 1895. The game had been one of those classic push-me-pull-you bruising affairs, with each team testing the elasticity of the other—and failing mightily, as the 0-0 score indicated. With but five minutes remaining and the score still stalemated at zero, North Carolina was in possession of the ball on its own 40-yard line. As they had all afternoon, North Carolina called an end run.

And, as they had all afternoon, Georgia came up to do damage to the Carolina player with the ball.

As the Georgia tacklers trapped the Carolina runner behind the line, the North Carolina captain, George Butler, who had been leading the interference—such as it was—seeped through the wall of advancing Bulldogs. Standing four yards on the other side of the line of scrimmage, Butler hollered at the unknown Carolina ballcarrier, "Throw me the ball!"

Facing a sudden extinction of his lights, the more-than-somewhat confused ballcarrier,

snatching at any straw,

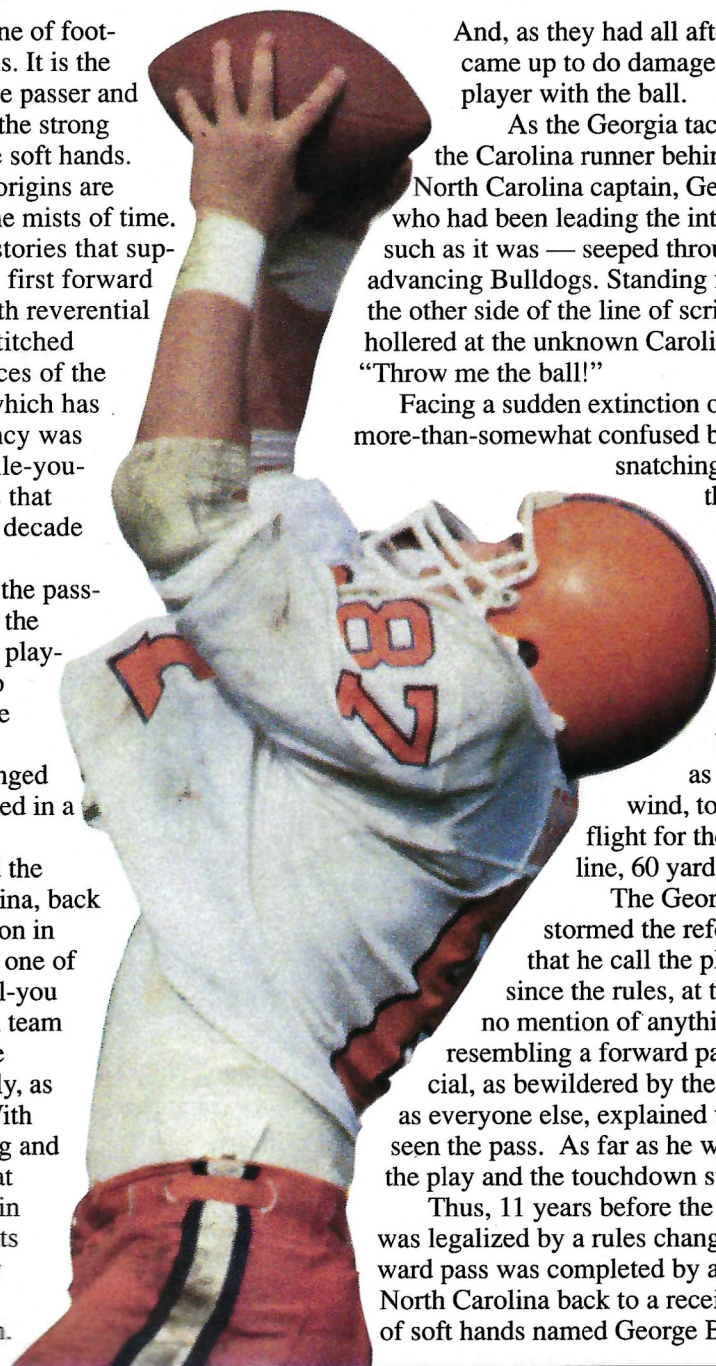

threw the ball in the general direction of Butler who caught it and, leaving the Georgia eleven as

bereft of motion

as a sail without wind, took off in full flight for the Georgia goal-line, 60 yards away.

The Georgia team stormed the referee, demanding that he call the play "illegal," since the rules, at the time, made no mention of anything even closely resembling a forward pass. But the official, as bewildered by the turn of events as everyone else, explained that he had not seen the pass. As far as he was concerned, the play and the touchdown stood.

Thus, 11 years before the forward pass was legalized by a rules change, the first forward pass was completed by an unnamed North Carolina back to a receiver possessed of soft hands named George Butler.

Presenting the  
*PowerNote*<sup>™</sup>  
Notebook Work Organizer

The PowerNote does virtually everything you need a computer for.

Think about it: it does word processing, spreadsheets, organizing, scheduling with alarm and calculating. It can also send faxes, interface with PC's and any printer, access on-line information services and play Tetris<sup>™</sup>. Plus, it has a 2-way switchable backlit LCD display and 3.5" disk drive for unlimited memory.

No experience is necessary because easy to use pull down menus tell you what to do in plain English.

It's notebook size, weighs 5 lbs. and operates on batteries or AC, so you can use it anywhere.

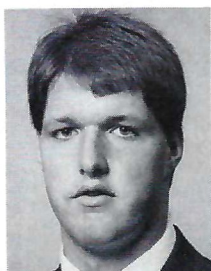

The PowerNote may look, act and think like a computer, but at under \$500...you'll think it's terrific.

We're at your side.

# One World One Olympic Games Fax Network

In the spirit of human accomplishment that embodies the Olympic Games, Ricoh has created the first Olympic Games fax network to link all the National Olympic Committees from around the world.

This same spirit has driven Ricoh to build the world's most popular line of fax machines. From our PF-1 portable fax, which is in the Guinness Book of Records\* as the world's smallest portable fax machine, to our broad line of plain paper fax machines.

Ricoh offers our best wishes to all the Olympic athletes as they strive for success in 1992. To spur your company's success, call 1-800-63-RICOH ext. 1308 and put the fax machines used by more people around the world on your team.

# THIS IS FLORIDA STATE UNIVERSITY

**F**lorida State University, nearing its golden anniversary as a coeducational graduate research institution, is poised on the brink of joining the nation's academic elite.

Building rapidly from the framework of a highly regarded liberal arts college for women, located on the oldest continuous site of higher education in Florida, the university has emerged as an institution of national and international esteem, evidenced by a number of exciting recent additions to its record of excellence:

- FSU, selected over the Massachusetts Institute of Technology, attracted the National High Magnetic Field Laboratory to Florida's capital city in 1990. The National Science Foundation will establish the \$100 million, state-of-the-art magnet lab at FSU.

- At the forefront of super-computing since obtaining its first high-speed computer in 1985, FSU took yet another step in ultra-fast computing in 1990 with the acquisition of two new super-computers. Both computers can be accessed from hundreds of locations in the United States and Europe.

- In 1991, Florida State ranked second in popularity nationwide among high school seniors. FSU was one of only three institutions among the top 15 choices of both black and white college-bound students.

- FSU's high-tech program in structural biology in 1991 received the university's largest single foundation grant to date, \$4 million, to position it among the leaders in the field worldwide.

- Construction of the \$75 million University Center is under way adjacent to Doak S. Campbell Stadium. When completed, the University Center will provide 550,000 square feet of classroom and office space and a centralized location for student services.

And, in 1990, Florida State, after being courted by several national athletic conferences, joined the Atlantic Coast Conference, capping more than a decade of national prominence in intercol-

legiate athletics.

As this list attests, Florida State has begun the 1990s with exceptional strength, energy and vision for the future. And, under the new leadership of the university's 11th president, Dr. Dale W. Lick, FSU will continue to build on the foundation of its long history of excellence in scholarship, research and humanity.

A public university and a senior member of the State University System, Florida State was founded as an institution of higher learning in 1851 by legislative act and began operating in Tallahassee with its first students in 1857.

The main campus is spread over 347 acres in Tallahassee; the university owns a total of 1,172 acres in Leon, Bay and Franklin counties. For many years FSU has extended its reach far beyond Florida through international study programs in England, Italy, Switzerland, Yugoslavia, France, Panama, Costa Rica and the Caribbean.

These far-reaching programs are but a few of the 271 graduate and undergraduate degree programs offered through Florida State's eight independent colleges—Arts and Sciences; Business; Communication; Education; Engineering; Human Sciences; Law; and Social Sciences (incorporating the School of Public Administration and Policy)—and eight independent schools—Criminology and Criminal Justice; Library and Information Studies; Motion Picture, Television and Recording Arts; Music; Nursing; Social Work; Theatre; and Visual Arts and Dance.

With 1,533 members, the FSU faculty currently includes five members of both the National Academy of

Sciences and the American Academy of Arts and Sciences, and has included five Nobel laureates. The main library facility, the Robert M. Strozier Library, is linked via a computerized information system to other state university and national research libraries. The Paul A.M. Dirac Science Center Library

places scientific resources close by the university's main science research complex.

On the top floor of the Dirac Library is the headquarters of the Supercomputer Computations Research Institute, a program that brings together some 100 scientists, engineers and technicians.

Also providing unique research opportunities is the physics department's Tandem Van de Graaff Superconducting Accelerator Laboratory, which houses two powerful atom smashers and is ranked among the top four in the nation by the National Science Foundation.

FSU places a high priority on its nearly 29,000 students, their needs and interests. The Honors and Scholars program, the FSU Distinguished Lecture Series, student government, the one-of-a-kind, all-collegiate Flying High Circus, and intramural sports are among more than 200 organizations and activities in which students can participate.

In the heart of the state's thriving capital city, Florida State bonds the educational and social aspects of campus life just as it blends Gothic and modern styles of architecture with the oaks, pines, dogwoods, palms and azaleas of North Florida.

In all areas of teaching, research and service, Florida State University is advancing boldly into the 21st century.

**Dr. Dale W. Lick**  
 FSU President

## Think of it as turbocharged TV.

Now high-performance can be experienced in a different kind of vehicle.

The new Toshiba 32-inch Super TUBE™ TV with Super Carver Sonic Holography®

The Super TUBE™ does for TV what turbocharging does for engines.

The power comes from increased voltage, via a dual path electron gun and eight larger lenses.

Perhaps, a few quotes from the February 1990 issue of *Video Review*

will help put all this technology in its proper perspective.

When judged against seven other big screen TV's, the new 32-inch Super TUBE™ TV was unanimously voted as having "...the best picture...." As well as being "...more than 50% brighter than other sets..." with "...great focus, superb edge sharpness, and fine brightness..."

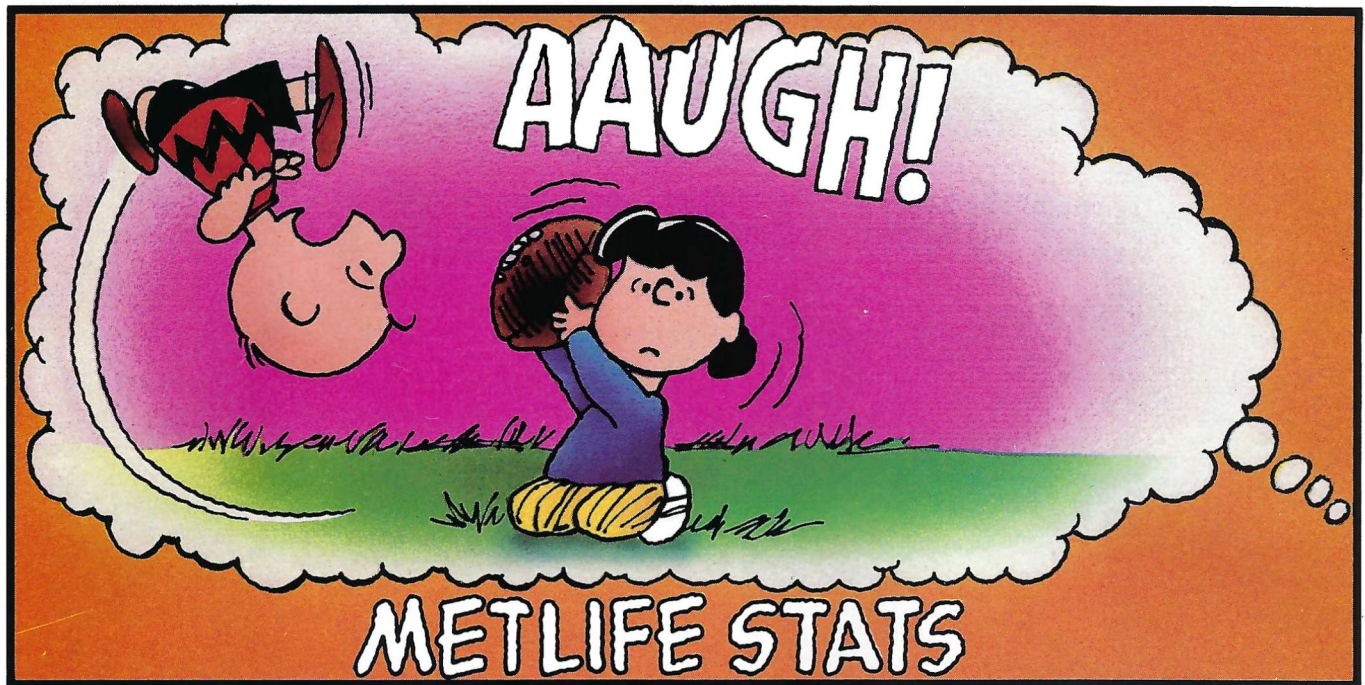

And it comes loaded with features, all standard of course, that make it easy to control and incredibly responsive.

Including remote-controlled swivel motors that allow the TV and two of its six speakers to each turn 15 degrees left or right.

Finally, there's a television for people who want high-performance in their living-room, as well as in their garage.

In Touch with Tomorrow

# FLORIDA STATE ATHLETIC DEPARTMENT

**T**he 1990-91 year was a stellar year for Florida State University athletics. Sparked by regular season success, many of FSU's 18 teams and individual competitors embarked on post-season action.

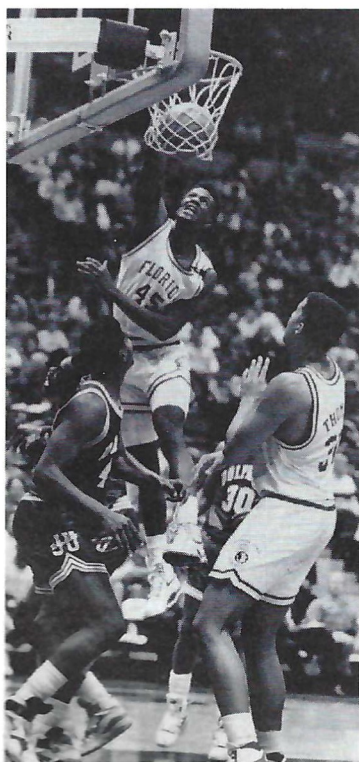

The Seminoles proved once again that every team Florida State fields is a team to be reckoned with.

The success of Florida State athletics started in the fall when the football team again finished the season near the top of the polls. The 1990 ranking was the fourth consecutive top-four finish for the Seminoles. The Tribe's record of 10-2 and their 24-17 victory over Penn State in the Blockbuster Bowl allowed the Seminoles to garner success.

The other fall sports followed in the football team's footsteps. Post-season action was a common staple in the early part of the year. The men's and women's cross country teams both competed in the NCAA District III Championships held at Furman University. Both teams finished in the middle of the standings. Jason Frank was the brightest spot for the Seminole runners, as he finished in the top 20.

The volleyball team also enjoyed post-season play. Although Louisville spoiled Florida State's chance at a sixth consecutive Metro Conference Volleyball Championship, the Lady Seminoles still received a post-season bid to the NCAA tournament. Florida State lost in the first round of the tournament to Kentucky.

The chill of the winter couldn't cool the winning ways of Seminole athletics. The men's and women's basketball teams proved that they deserved to be a part of NCAA action, garnering their first NCAA victory under Head Coach Maynell Meadors. The Lady Seminoles won the Metro Conference Basketball Championship before setting their eyes on NCAA play. Florida State defeated Appalachian State before losing to Western Kentucky in the second round. The Lady Seminoles finished

with a 25-7 record.

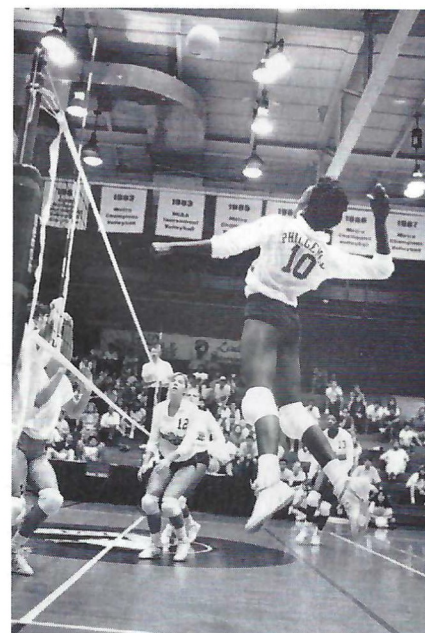

As for the men's basketball team, they have proven over the last five seasons under Pat Kennedy that they are on the verge of becoming a national powerhouse. Aside from a rebuilding year in 1989-90, the Seminoles have put together outstanding seasons that include three NCAA tournament appearances and an NIT berth. The 1990-91 season was an especially prosperous one for the Tribe. The Seminoles defeated their nemesis, Louisville, in the Metro Conference final giving them an automatic bid to the NCAA tournament. Florida State made it into the second round of the tournament before falling to Indiana. Kennedy has put Florida State on the national basketball map.

The swimming teams showed their winning spirit in the Metro Conference swim meets. The women won their first-ever Metro title, while the men placed second in the meet. However, the men did achieve strong individual marks in the NCAA Championships.

The spring also brought a slew of awards to Seminole athletics. Earmarked by the baseball team's success, the remainder of the sports demonstrated why Florida State is on top of college athletics.

The baseball team finished its regular season in a familiar spot — as Metro Conference champions. This year the Seminoles shared the honor with Southern Mississippi due to a final day rain-out. Florida State entered post-season play as the number one seed in the Atlantic Regional. The Seminoles lived up to their seeding and went undefeated in the Regional, earning a trip to the College World Series. The familiar surroundings of the World Series — the Seminoles have made four trips there since 1986 — did not prove helpful. The Tribe was sent home after two games.

The softball team had

an outcome similar to the baseball team's season. They also won a trip to the College World Series, where they were sent home by perennial power Fresno State. They finished the year with a 57-12 record.

The tennis, track and golf teams also had successful seasons. The women's tennis team was crowned Metro Conference Champion while the men placed second in the Conference tourney. The men's team boasted an NCAA qualifier in Stephen Noteboom. The men's and women's track teams were both Metro Conference Champions as each team left the Metro undefeated in conference championship meets. Both teams had individual qualifiers for the NCAA Championships. Bolstered by hurdler Kim Batten, Florida State finished ninth in the women's national competition. Finally, the golf teams proved their prowess by making it into post-season play. Both the men's and women's teams competed in regional golf action but not before the women won the Metro golf title, and the men achieved runner-up Metro Conference status.

Florida State athletics have enjoyed success in each and every sport. Each year, Florida State coaches try to build on their previous year's accomplishments. This winning spirit has allowed Florida State to put together one of the strongest and most competitive athletic programs in the country.

# HEAD COACH BOBBY BOWDEN

**F**lorida State's final regular season game of 1990 exemplified the reason Bobby Bowden just might be America's finest football coach.

Pressed into a must-win situation to remain among the nation's Top 10 teams and challenged by a young innovative gunslinger from across the state, the wise and crafty coaching graybeard of FSU carved an absolute masterpiece.

With only five seniors in his starting lineup, Bowden's surging "baby" Seminoles executed to perfection, topping the seemingly insurmountable and sixth-ranked Florida Gators of Steve Spurrier. The 45-30 victory was orchestrated with the skill of a surgeon, and the Florida State empire was saved again by the "white knight" from Birmingham. Just as it has been for the past 15 seasons.

The Blockbuster Bowl win also solidified Bowden's place as college football's best bowl coach. His 10-3-1 record in bowl games is light years ahead of any coach with more than 10 appearances. The Blockbuster was the ninth straight post-season showing by Bowden's Seminoles—a string in which there has not been a loss. A 10th career bowl win makes Bowden just the fourth man in history to reach double digits.

Like fine wine, Bowden, at age 61, keeps getting better. The list of coaches who have won more games than Bobby is getting so short you might want to jot them down, on a matchbook cover. Last season, Bowden climbed from 14th to eighth all-time. His 205 career victories rank second among active Division I coaches behind only Paterno.

Just how impressive is Bowden's 25-year coaching record? He's now on the same page with all the legends of college football. The seven coaches in front of him might as well have invented the game: Bear Bryant, Alonzo Stagg, Pop Warner, Woody Hayes, Bo Schembechler, Paterno and Jess Neely.

When Bowden first arrived in Tallahassee in 1976, he described his relationship with the school as "a marriage" and was determined to let "no man put it asunder." True to his word, he completed his 15th season at FSU in 1990.

Life has never been better in the land of the Seminoles. The victory over Penn State gave FSU its fourth straight Top Four national finish, fourth straight season with 10 or more wins and a jump start on 1991 with most all the key contributors back.

What Bobby Bowden means to Florida State University off the playing field cannot be measured, even by the most sophisticated of supercomputers. Respect, admiration, class, honesty,

charisma, charm and humor. When they put that kind of data into the system, a giant replica of Bowden will appear.

As if his character isn't enough, his coaching style draws admirers nationwide. A wide-open, gambling style makes Bowden teams a treat to watch, a pleasure to play on and a delight to cover. Reverses, flea-flickers, laterals—you name it. Here it comes!

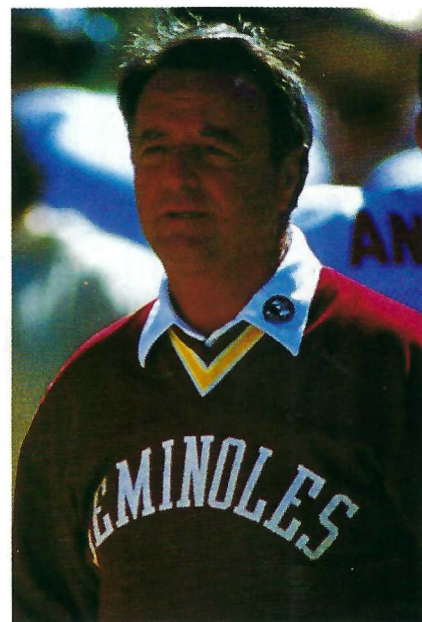

A look at the record shows he's done it both ways. The flashy wins may get all the attention, but for every one of those, there are a dozen others spawned from sound fundamental football. This guy's not just a gambling magician. He can flat out coach!

By now it's been well-chronicled how the Birmingham cracker left the snow and ice of West Virginia to come to Florida State and save the program. Three seasons after he walked on campus, he had taken one of the worst football teams in the country to within one game of a national championship.

Bowden's Florida State record is 132-42-3 (.754). That includes a 71-14-1 (.831) record in Tallahassee and a 61-28-2 (.680) mark away from home. He has built those numbers against some of the nation's toughest schedules. His road record alone includes a 2-0 mark at Ohio State, 1-0 at Notre Dame, 2-0 at Arizona State, 1-0 at Clemson, 4-2 against Nebraska and 2-0 at Syracuse, to name just a few.

The coach has been a man of his word. At his first FSU press conference in 1976, he said his biggest priority was to play arch-rival Florida on an even keel. The Gators, you see, had owned Florida State, leading the series 15-2-1. In 15 meetings since his arrival, Bowden owns an 8-7 advantage.

Bowden achieved some impressive numbers in his previous coaching stops (31-6 at Samford University in Birmingham between 1959 and 1962, and 42-26 at West Virginia from 1970-75), but what he has done at Florida State is simply phenomenal. Seven times in 15 years his Seminoles have won 10 or more games in a season. Florida State had been to just eight bowls in the 29 years before him. Since his arrival, FSU has been to 12 bowl games, including a string of nine in a row and five New Year's Day trips. There can be no question about the national prominence the FSU program has in the Associated Press Top 20 13 times. In his 15 years, the Seminoles have been a mainstay—ranked by that poll in 161 weekly polls out of 215 possible weeks. An incredible 81 times under Bowden, the Seminoles have been in the Top 10 on a given week. What about a Top 20 finish? Eleven times in 15 seasons!

Above all his coaching accomplishments, though, are his credentials as a man. Friendly and outgoing, Bowden is a devoted Christian and family man. He loves people. His personality and charm are bigger than life. He has become somewhat of a folk hero in the Deep South.

A polished speaker, Bowden is constantly in demand. His busy coaching schedule curtails many speaking engagements, but any free evening in the year will find him on the after dinner circuit. Every free Sunday morning will find him in the pulpit of a church somewhere in the South.

Outside of football, Bowden has an intense interest in World War II history and reads countless books and articles on the subject. He recently traced his ancestry to parts of Germany and had an opportunity to visit the country in 1988.

Bowden was an outstanding player at Woodlawn High School in Birmingham, Ala. and went on to Alabama as a freshman quarterback, fulfilling a lifelong dream to play for the Crimson Tide. During one semester in Tuscaloosa, he found his childhood sweetheart, Ann Estock, and she was enough to lure him back to Birmingham. He soon married Ann and transferred to Howard College (now Samford University) in Birmingham.

Bowden was a Little All-American there and started a long Bowden tradition at the school which goes on even today. He began his collegiate head coaching career there in 1959 and his son Terry is currently the head coach. His youngest son, Jeff, and son-in-law Jack Hines are both on Terry's staff. Oldest son Steve is on the faculty at Flagler College in St. Augustine, Fla. Another son, Tommy, recently was named the offensive coordinator on Pat Dye's staff at Auburn. His four sons, daughters Robyn Hines and Ginger Madden, and their families make up the Bowden clan, which numbers 24, including 10 grandchildren.

# This Fall, We're Lowering Our Rates. Not Our Standards.

*Thursdays  
through Sundays*

**\$44**

*Per Room, Per Night.  
Conditions Apply.\**

On your next football weekend, why settle for a bargain hotel when you can have a hotel that's a genuine bargain. A Courtyard by Marriott hotel for an incredibly reasonable \$44 a night, any Thursday through Sunday.

Unlike so many of those too-good-to-be-true offers, our special \$44 rate isn't for a heartbreak hotel. It's for a Courtyard. The perfect place to rest and retool for the big game. Where you can stretch out in a spacious, comfortable room. And unwind in our pool, whirlpool and minigym that can help even the most worn out fan go the distance. Of course, for those of you who hardly want to move, there's even a cozy restaurant just steps from your room.

So, for a great way to tackle a football weekend for a mere \$44 a night, call **1-800-321-2211** or your travel agent, 7 days ahead for reservations. After all, why settle for a run-of-the-mill hotel when you can have one that goes the whole 9 yards.

**Go USA!**

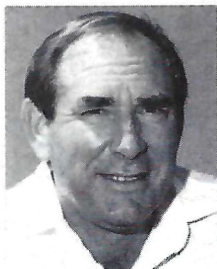

\*Special rate for Thursday nights must be in conjunction with Friday night stay. 7 day advance reservation required. Groups are not eligible for this offer. Offer good through January 26, 1992 at 194 participating Courtyards nationwide. Rooms are limited. Other restrictions may apply. © 1991 Courtyard by Marriott

ELCOME TO THE GREAT INDOORS.

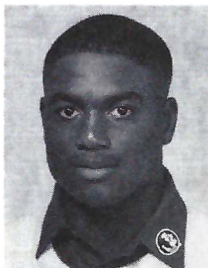

It's true that in a Volkswagen, form follows function. But with our versatile Volkswagen Golf, form follows function, after function, after function.  Settle down into infinitely adjustable front bucket seats. Stretch out. Load in the kids and fill the trunk with luggage. Whether you're going the distance or just down to the corner, Golf makes any drive more enjoyable.  Need even more room? Simply fold down the back seat and Golf gives you nearly 40 cubic feet for whatever you need to carry.  Yet as sensible as it seems, Golf is still every bit a driver's car. With performance features like fuel-injection, four-wheel independent suspension, rack and pinion steering and power front disc brakes that might make you forget its practicality next time you're heading down a twisting back road.  It all adds up to the exhilarating driving experience we call Fahrvergnügen.<sup>™</sup> And all for only \$9270\* A price that makes getting into a new Golf an even more welcome experience.

# You'd think that after 200 years, people visiting Utah County would have something new to say.

*"Easy going peoples—gentle and affectionate. . . very ample nooks. . . the climate here is a good one. . . over and above these finest of advantages, there is plenty of timber in the surrounding mountains, many sheltered spots, water, and meadows . . . we were filled with unutterable joy."*  
--Fathers Dominguez and Escalante  
September 1776

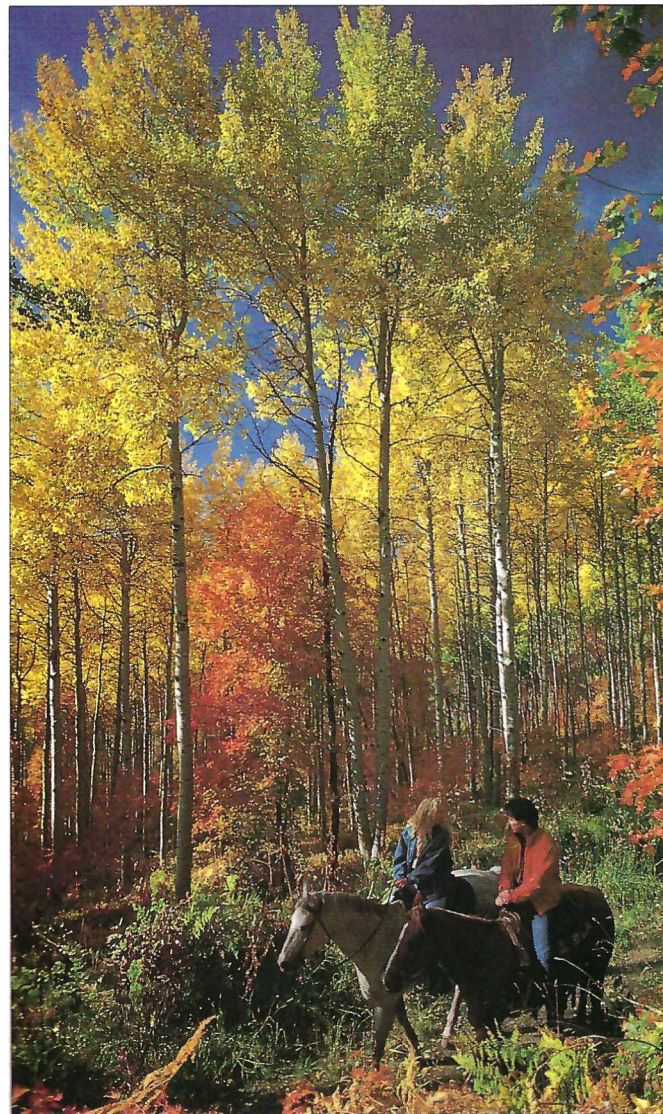

Spanish friars Dominguez and Escalante traveled through the Utah County area in Sept., 1776.

Fact is, Utah County visitors still rave about the mountains, the forests, the snow – the variety of things to see and do. Even the people are still friendly as ever. There are a few amenities we've added since Fathers Dominguez and Escalante, though. Like some of the state's finest restaurants, and accommodations ranging from world-class luxury hotels to elegant mountain cabins. If you're looking for one of the best vacations Utah has to offer, start exploring Utah County. You'll come away saying the same old thing, but we're used to it by now.

## Utah County features exciting attractions like these:

- Sundance Ski Resort
- Seven Peaks Resort Water Park
- Sundance Summer Theater
- Utah Lake State Park
- Uinta National Forest
- America's Freedom Festival at Provo
- Brigham Young University
- BYU Earth Science Museum
- McCurdy Historical Doll Museum
- Bridal Veil Falls and Skytram
- Cascade Springs Recreation Area
- Springville Museum of Art
- Hutchings Museum of Natural History
- Bean Life Science Museum
- Historic Provo Tabernacle
- Timpanogos Cave Ntnl. Monument
- Golf
- Fishing
- Skiing
- Mountain biking
- Camping
- Hiking
- And much more!

# THEY SAID IT COULDN'T BE DONE

Great Comebacks and Other "Against All Odds" College Football Stories — presented by Rogaine.

## Davis Brings USC Back Against Notre Dame

**O**ne of college football's most exciting spectacles is that of the University of Southern California white charger

dashing around the Memorial Coliseum oval after the Trojans score while the band strikes up "Fight on for USC" and Tommy Trojan extends his sword in victory. But on one Saturday afternoon back in December of 1974 it

kickoff back down the field, setting up a Pat Haden-to-Davis six-yard pass for a touchdown. Notre Dame opened up the second half by kicking to the same Anthony Davis and this time he returned it 102 yards straight

Anthony Davis of USC breaks away against Notre Dame.

seemed that the Trojan's horse would be run so much it would be an early candidate for the glue factory. In fact, it had to take its victory gallop no less than eight times within 17 minutes.

The game, of course, was the famous — or infamous, depending upon your point of view — USC-Notre Dame game of December 7, 1974. With just 20 seconds to go in the first half and Notre Dame leading 24-0, Southern Cal's Anthony Davis returned a

up the middle for a touchdown. Suddenly, in just 23 seconds, Southern Cal had scored twice, and now trailed by just 24-12.

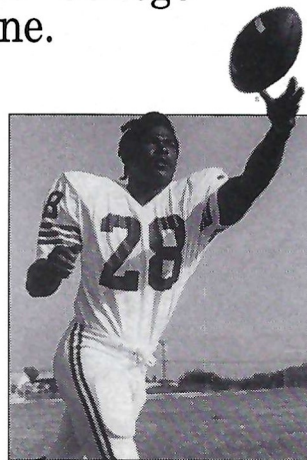

Three minutes and 12 seconds later Davis scored his third touchdown and, with a successful conversion, Southern California trailed 24-19. A couple of minutes later Davis was in the end zone for the fourth time — doing an impromptu

dance on his knees — as Southern Cal moved into the lead 27-24 on the two-point conversion. And, as if that wasn't enough, Notre Dame fumbled on its next possession, and USC scored again.

The score stood 34-24 and before the third quarter ended, Haden would find J.K. McKay with a 44-yard TD bomb to run the score to 41-24. Before Tommy Trojan and his charger had completed their victory lap, Notre Dame fumbled again and Haden threw another TD pass with but 17 seconds gone in the fourth quarter. Then Southern Cal defender Charles Phillips intercepted an errant Notre Dame pass and returned it for 58 yards and yet another Trojan tally. The Trojans scored eight touchdowns and 55 points as they turned a 24-0 deficit into a 55-24 rout in just 17 minutes.

**A**s a defensive back in high school, Wilbert Montgomery was about as much overlooked as Whistler's father. In fact, the star runner on the team was his younger brother. So, it was a surprise when tiny Abilene Christian College in Texas gave Wilbert a scholarship as a running back. But he repaid Abilene Christian's longshot gamble by scoring an NAIA record 37 touchdowns in his freshman year. During that freshman year, 1973, Montgomery also contributed to another record, of sorts. Abilene Christian had lost its opening game, 56-46, almost

matching the all-time record for

Wilbert Montgomery

most points by a losing team, 49. Two games later, when Montgomery scored in the last minute of the game against Stephen F. Austin for his sixth touchdown of the game, he made the final score Abilene Christian 57, Stephen F. Austin 50—a new record for a new record-maker.

**I**s it possible that a player can run 98 yards with the ball and not score? Possible, but improbable. But before you say it couldn't be done, let's go back to the 1946 season, when a running back for Ohio Northern named Wilson, first name lost to posterity, took off from his own one-yard line and ran through the opposing Otterbein team, weaving his way downfield for 98 yards before going down at the Otterbein one for the longest non-touchdown run in college football history.

**U**nder that generic heading of "they-said-it-couldn't-be-done," try this one. On a 1908 afternoon, the University of Idaho gained 347 yards and did not give up a single yard to its opponent, the University of Oregon. And yet Oregon won the game, 27-21.

**Rogaine**<sup>®</sup>  
TOPICAL SOLUTION  
minoxidil 2%

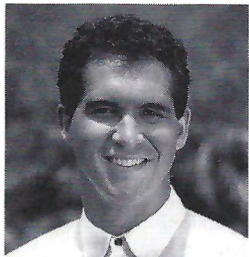

Medical studies reveal...

# The earlier you use Rogaine, the better your chances of growing hair.

*Rogaine* is the only product ever proven to grow hair. And studies show that using it at the first signs of hair loss gives you the best chance that it will grow hair for you.

## What are the early warning signs of losing hair?

Everyone loses a little hair. Fifty to 80 hairs a day is normal. If you're losing more than 100 hairs a day without normal replacement, the first sign will often be thinning of the "crown" at the top of your scalp. See your doctor when you first notice it, because this small bald spot can grow larger over time.

*"I may not have grown any hair after 6 months, but most of my hair's stopped falling out. I'm glad I got to the doctor fast." —Luis Silva, 20*

Two million men worldwide have tried *Rogaine*. In year-long clinical tests conducted by dermatologists at 27 medical centers nationwide, virtually half (48%) of the men who tried *Rogaine* saw at least moderate hair regrowth. Thirty-six percent had minimal regrowth and only 16% had no regrowth.

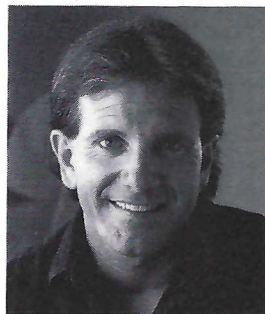

Doctors also found that it usually takes 4 months or more before you can begin to evaluate your use of *Rogaine*. Side effects were minimal:

only 5% of the men tested had itching of the scalp.

## Will *Rogaine* work for you?

Only a dermatologist or other doctor who treats hair loss can tell you, so see one soon. The sooner you get your prescription for *Rogaine* (which is now available in an economical three-pack), the sooner you could be growing hair.

For more information, a list of doctors in your area who can help you, and a certificate worth \$10 as an incentive to visit your doctor, call the toll-free number below.

*"The first time I saw hair growing was at about 8 months. I hadn't lost much... but I'm not taking any chances."*  
—Tony Vila

**Call 1-800-753-5559 ext. 694 for  
your \$10 certificate. Soon.**

*"My hair's completely filled in. It started growing in under 2 months. It was amazing! Early treatment... it works!" —Jim Wilets, 30*

# The only product proven to grow hair.

## What is ROGAINE?

ROGAINE Topical Solution, discovered and made by The Upjohn Company, is a standardized topical (for use only on the skin) prescription medication proved effective for the long-term treatment of male pattern baldness of the crown.

ROGAINE is the only topical solution of minoxidil. Minoxidil in tablet form has been used since 1980 to lower blood pressure. The use of minoxidil tablets is limited to treatment of patients with severe high blood pressure. When a high enough dosage in tablet form is used to lower blood pressure, certain effects that merit your attention may occur. These effects appear to be dose related.

Persons who use ROGAINE Topical Solution have a low level of absorption of minoxidil, much lower than that of persons being treated with minoxidil tablets for high blood pressure. Therefore, the likelihood that a person using ROGAINE Topical Solution will develop the effects associated with minoxidil tablets is very small. In fact, none of these effects has been directly attributed to ROGAINE in clinical studies.

## How soon can I expect results from using ROGAINE?

Studies have shown that the response to treatment with ROGAINE may vary widely.

Some men receiving ROGAINE may see faster results than others; others may respond with a slower rate of hair growth. You should not expect visible growth in less than four months.

## If I respond to ROGAINE, what will the hair look like?

If you have very little hair and respond to treatment, your first hair growth may be soft, downy, colorless hair that is barely visible. After further treatment the new hair should be the same color and thickness as the other hair on your scalp. If you start with substantial hair, the new hair should be of the same color and thickness as the rest of your hair.

## How long do I need to use ROGAINE?

ROGAINE is a treatment, not a cure. If you respond to treatment, you will need to continue using ROGAINE to maintain or increase hair growth. If you do not begin to show a response to treatment with ROGAINE after a reasonable period of time (at least four months or more), your doctor may advise you to discontinue using ROGAINE.

## What happens if I stop using ROGAINE? Will I keep the new hair?

If you stop using ROGAINE, you will probably shed the new hair within a few months after stopping treatment.

## What is the dosage of ROGAINE?

You should apply a 1 mL dose of ROGAINE two times a day, once in the morning and once at night, before bedtime. Each bottle should last about 30 days (one month). The applicators in each package of ROGAINE are designed to apply the correct amount of ROGAINE with each application. Please refer to the Instructions for Use.

## What if I miss a dose or forget to use ROGAINE?

If you miss one or two daily applications of ROGAINE, you should restart your twice-daily application and return to your usual schedule. You should not attempt to make up for missed applications.

## Can I use ROGAINE more than twice a day? Will it work faster?

No. Studies by The Upjohn Company have been carefully conducted to determine the correct amount of ROGAINE to use to obtain the most satisfactory results. More frequent applications or use of larger doses (more than one mL twice a day) have not been shown to speed up the process of hair growth and may increase the possibility of side effects.

## What are the most common side effects reported in clinical studies with ROGAINE?

Studies of patients using ROGAINE have shown that the most common adverse effects directly attributable to ROGAINE Topical Solution were itching and other skin irritations of the treated area of the scalp. About 5% of patients had these complaints.

Other side effects, including light-headedness, dizziness, and headaches were reported by patients using ROGAINE or placebo (a similar solution without the active medication).

## What are some of the side effects people have reported?

The frequency of side effects listed below was similar, except for dermatologic reactions, in the ROGAINE and placebo groups. **Respiratory** (bronchitis, upper respiratory infection, sinusitis); **Dermatologic** (irritant or allergic contact dermatitis, eczema, hypertrichosis, local erythema, pruritus, dry skin/scalp flaking, exacerbation of hair loss, alopecia); **Gastrointestinal** (diarrhea, nausea, vomiting); **Neurology** (headache, dizziness, faintness, light-headedness); **Musculoskeletal** (fractures, back pain, tendinitis); **Cardiovascular** (edema, chest pain, blood pressure increases/decreases, palpitation, pulse rate increases/decreases); **Allergy** (nonspecific allergic reactions, hives, allergic rhinitis, facial swelling and sensitivity); **Special Senses** (conjunctivitis, ear infections, vertigo, visual disturbances, including decreased visual acuity); **Metabolic-Nutritional** (edema, weight gain); **Urinary Tract** (urinary tract infections, renal calculi, urethritis); **Genital Tract** (prostatitis, epididymitis, sexual dysfunction); **Psychiatric** (anxiety, depression, fatigue); **Hematology** (lymphadenopathy, thrombocytopenia); **Endocrine**. Individuals who are hypersensitive to minoxidil, propylene glycol, or ethanol must not use ROGAINE.

ROGAINE Topical Solution contains alcohol, which could cause burning or irritation of the eyes, mucous membranes, or sensitive skin areas. If ROGAINE accidentally gets into these areas, bathe the area with large amounts of cool tap water. Contact your doctor if irritation persists.

## What are the possible side effects that could affect the heart and circulation when using ROGAINE?

Although serious side effects have not been attributed to ROGAINE in clinical studies, there is a possibility that they could occur because the active ingredient in ROGAINE Topical Solution is the same as in minoxidil tablets.

Minoxidil tablets are used to treat high blood pressure. Minoxidil tablets lower blood pressure by relaxing the arteries, an effect called vasodilation. Vasodilation leads to retention of fluid and increased heart rate. The following effects have occurred in some patients taking minoxidil tablets for high blood pressure:

Increased heart rate—some patients have reported that their resting heart rate increased by more than 20 beats per minute; Rapid weight gain of more than 5 pounds or swelling (edema) of the face, hands, ankles, or stomach area; Difficulty in breathing, especially when lying down, a result of an increase in body fluids or fluid around the heart; Worsening of, or new onset of, angina pectoris.

When ROGAINE Topical Solution is used on normal skin, very little minoxidil is absorbed and the possible effects attributed to minoxidil tablets are not expected with the use of ROGAINE. If, however, you experience any of the possible side effects listed, discontinue use of ROGAINE and consult your doctor. Presumably, such effects would be most likely if greater absorption occurred, e.g., because ROGAINE was used on damaged or inflamed skin or in greater than recommended amounts.

In animal studies, minoxidil, in doses higher than would be obtained from topical use in people, has caused important heart structure damage. This kind of damage has not been seen in humans given minoxidil tablets for high blood pressure at effective doses.

## What factors may increase the risk of serious side effects with ROGAINE?

Individuals with known or suspected underlying coronary artery disease or the presence of or predisposition to heart failure would be at particular risk if systemic effects (that is, increased heart rate or fluid retention) of minoxidil were to occur. Physicians, and patients with these kinds of underlying diseases, should be conscious of the potential risk of treatment if they choose to use ROGAINE.

ROGAINE should be applied only to the scalp and should not be used on other parts of the body, because absorption of minoxidil may be increased and the risk of side effects may become greater. You should not use ROGAINE if your scalp becomes irritated or is sunburned, and you should not use it along with other topical treatment medication on your scalp.

## Can men with high blood pressure use ROGAINE?

Individuals with hypertension, including those under treatment with antihypertensive agents, can use ROGAINE but should be monitored closely by their doctor. Patients taking guanethidine for high blood pressure should not use ROGAINE.

## Should any precautions be followed?

Individuals using ROGAINE should be monitored by their physician one month after starting ROGAINE and at least every six months afterward. Discontinue ROGAINE if systemic effects occur.

Do not use it in conjunction with other topical agents such as corticosteroids, retinoids and petrolatum or agents that enhance percutaneous absorption. ROGAINE is for topical use only. Each mL contains 20 mg minoxidil and accidental ingestion could cause adverse systemic effects.

No carcinogenicity was found with topical application. ROGAINE should not be used by pregnant women or by nursing mothers. The effects on labor and delivery are not known. Pediatric use: Safety and effectiveness has not been established under age 18.

Caution: Federal law prohibits dispensing without a prescription. You must see a doctor to receive a prescription.

# ARMY AND NAVY HEISMAN WINNERS HONORED AT HALFTIME

**T**onight's Disneyland Pigskin Classic halftime celebration salutes the military academies with the presentation of the College Football Heritage Award to the five Heisman Trophy winners from Army and Navy. The patriotic festivities feature Disney characters, bands and colorful entertainment that will salute the troops that served in Operation Desert Storm.

During the halftime show, Navy's Heisman winners Joe Bellino and Roger Staubach and Army's Pete Dawkins, Felix "Doc" Blanchard

and Glenn Davis, will receive the College Football Heritage Award for their achievements in college football.

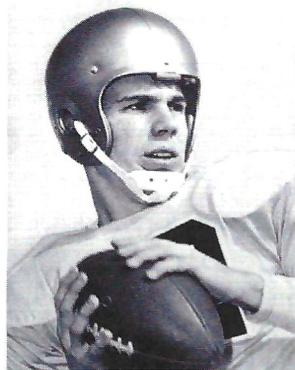

Point, where he finished second in the Heisman balloting in both 1944 and '45 before winning the award in 1946. During that season, Army's third consecutive undefeated year, Davis rushed for 712 yards with a 5.8 yards-per-carry average and was responsible for 17 touchdowns. As a jack-of-all-trades athlete, he completed 19 passes for 396 yards, caught 20 passes averaging more than 17 yards per catch, punted 19 times for a 34.7 average, intercepted five passes, returned punts for an 11.3 average and kickoffs for more than 38 yards per return.

in 1965, he became only the fourth Midshipman since 1900 to win both the Thompson Trophy Cup and the Naval Academy Athletic Association Sword.

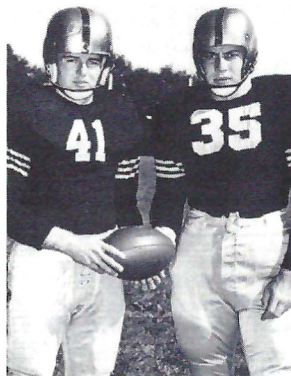

in 1965, he became only the fourth Midshipman since 1900 to win both the Thompson Trophy Cup and the Naval Academy Athletic Association Sword.

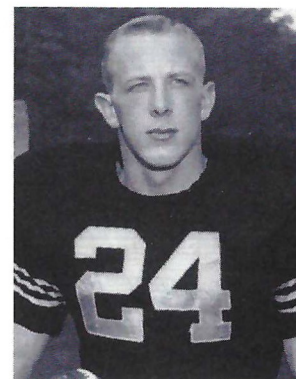

Joe Bellino

Roger Staubach

Glenn Davis & Doc Blanchard

Pete Dawkins

Bellino became the first member of the Naval Academy to win the Heisman Trophy when he won the award in 1960. During that season, Bellino rushed for 834 yards with a five yards-per-carry average. As the driving force in the Midshipmen offensive attack, he scored 18 touchdowns and a Navy record of 110 points. A quick, versatile, "big play" athlete, Bellino averaged 16.5 yards per reception, more than 16 yards per punt return and 22 yards per kickoff return during his memorable season.

In 1961, Bellino became the first person in 41 years to win both prestigious Naval Academy awards in the same year, the Thompson Trophy Cup and the Naval Academy Athletic Association Sword. In recognition of his excellent college career, Bellino was inducted into the National Football Foundation Hall of Fame in 1977.

Along with his Heisman Trophy and unanimous All-America selection in '58, Dawkins was also named Academic All-America in both 1957 and '58. He was elected to the national Football Foundation Hall of Fame in 1975 and received the NCAA Silver Anniversary Award in 1983.

# The truth about the National Guard will blow you away.

We live next door to you.

We work with you. We teach your children. Build your homes. Pilot and maintain commercial airlines. Even repair your automobiles.

We're from all walks of life. And while we're really no different from you, something very important sets us apart.

We're America's citizen-soldiers. Dedicated to coming to your aid at a moment's notice. To protect your home. And defend our homeland. Yet, most Americans are unaware of just how many ways they depend on us.

On the frontline in Operation Desert Storm. On the frontline in the War on Drugs. On the frontline in local and state emergencies. On the frontline in nation-building efforts around the world. The Guard is there, defending the National interest, protecting our citizens and adding value to our states and nation.

The truth is that almost half the Army's combat units belong to the Army National Guard. You'll find us using the latest technology and equipment. From state of the art artillery units in Desert Storm to engineering and medical units helping our international neighbors.

And the Air National Guard? Today, we're a major contributor in all Air Force missions. From frontline fighter aircraft, medical evacuation and engineering units, to tactical and strategic airlift, and aerial refueling aircraft. We were

airborne in the first hours of Desert Shield and Desert Storm.

We face other enemies, too. Fighting alongside the U.S. Border Patrol and U.S. Customs Service, we help keep millions of dollars worth of illegal drugs from ever reaching our children.

The National Guard was formed to protect our colonies over 350 years ago. Close to 186,000 Guardsmen were killed or wounded overseas during World War II. Almost the same number were called to action during the Korean War. In Vietnam, Guardsmen received over 1,700 medals for bravery. In Operation Desert Storm, 72,000 Guardsmen were called to duty with over 40,000 serving in the Gulf.

Unlike other branches of the Armed Forces, the National Guard's charge is two-fold. Times of disaster, strife and need find the National Guard always ready to lend a hand — whether it's halfway around the world or right in our own backyard.

The National Guard is the finest men and women of your hometown. We're skilled. Capable. Intelligent. We're Americans at their best.

And that's the truth.

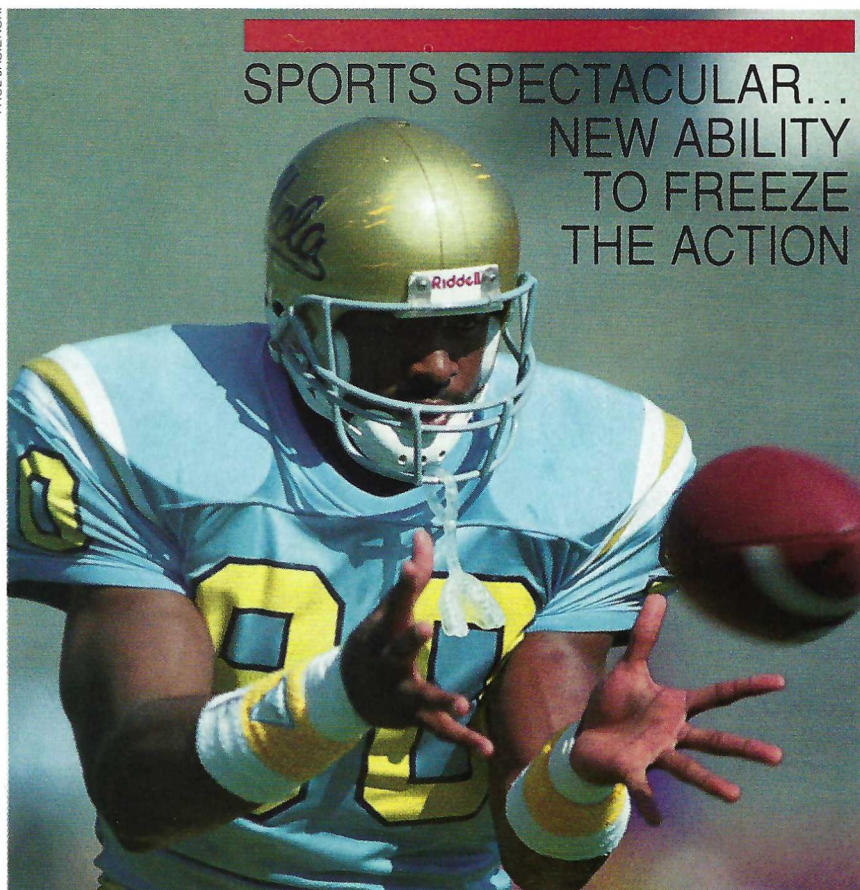

*Americans At Their Best.*

# THE NATIONAL GUARD

# MINOLTA

## TIPS ON SHOOTING SPORTS

PAUL JASIEŃSKI

SPORTS SPECTACULAR...  
NEW ABILITY  
TO FREEZE  
THE ACTION

Imagine this. There's less than two minutes left in the game. Buffalo Bills quarterback Jim Kelly goes into a no-huddle offense. He's working out of the shotgun, taking one-step drops and firing 10-yard passes to star wide receiver Andre Reed. The L.A. Raiders are caught off balance. Kelly remains cool. In just a few quick plays, the Bills have marched 50 yards down the field, deep into Raiders territory. The Raiders defense has no time to get set.

And neither do you. Not if you're the photographer. With this kind of fast, unpredictable action you've got to be ready to catch it the instant it happens. Today's sophisticated SLR equipment can get us into the game like never before. Autofocusing lets us cover all the angles, while fast film and fast lenses offer more action-stopping potential than ever. But now, there's even more. Another breakthrough in photo history.

Just recently, the photographic company that pioneered autofocusing in SLR cameras introduced a camera that operated in an entirely new way. With the use of an intelligence system featuring fuzzy logic control, they created a camera that actually *thinks!*

Programmed with the experience of professional photographers, this revolutionary new decision-making 35mm SLR can make up to a million calculations per second and distinguish between sports action, closeups, portraits, landscapes, and even romantic low-light scenes. All in the blink of an eye. Since the camera thinks along with you, it can react instantly to any situation at any time.

This sophisticated new SLR can respond to the most subtle changes in movement, lighting or contrast within the scene being photographed. It discerns the main subject and sets the best exposure program for that subject

and condition. Autofocusing is lightning-fast, continuous, and omni-directional. It tracks even quick, erratic subject movement in any direction with ease.

But what about the unpredictable? Those split-second expressions, gestures, or moments that can be missed in the time it takes to zoom the lens and compose the shot. Two exclusive new features called *eye-start operation* and *autozoom* provide the solution. When you pick up the camera and look through the viewfinder, special sensors in the grip and eyepiece activate all its functions. So the camera is always ready when you are.

And then an amazing thing happens. The lens automatically zooms to compose your shot, and you don't have to touch a single button! The camera does all the work. It instantly gives you an ideal subject magnification, saving precious seconds so you can capture that once-in-a-lifetime shot.

This is the first of a new breed of SLR cameras born for action. It gives you ultimate performance while keeping you in the creative driver's seat. With a unique transparent graphic display viewfinder, you can monitor camera functions and select shutter-priority, aperture-priority, expert program, or metered manual exposure control.

And if you want unlimited creative potential, check out today's optional SLR accessories like the tiny software cards that program the camera for specialized functions. One such card tells the camera to select the highest shutter speeds possible—to freeze sports and other fast action without a blur.

So, to catch fast sports action as fast as it happens, tap into today's advanced technology. All you have to do is look through the viewfinder, and the camera does the rest. Just press the shutter button when you want to take the picture. And if the action gets really hot, hold that shutter button down and the camera will shoot high-speed action-stopping sequences at four frames per second, ALL IN PERFECT FOCUS.

Fuzzy logic control, eye-start operation, autozoom, and camera software cards. Incredible advancements in photographic technology created for just one purpose—to give you expert results that were at one time limited only to professionals. Imagine what it can do for you. Good luck and good shooting!

# MICKEY KNOWS TEAMWORK.

# The Los Angeles Times Fund: Investing in our Community's Greatest Assets

Phenomenal dividends, unlimited growth potential: these are the hallmarks of a great investment. For 43 years, the Los Angeles Times has been making just such an investment—in the lives of Southern California's underprivileged children.

Through the charitable activities of the Los Angeles Times Fund, young people are being given a new perspective on the world and a chance to build rewarding and responsible lives. Supported by Times Special Events, such as the Los Angeles Times/Rams Charity Football Games, the Times Fund:

- Built and continues to support two Boys and Girls Clubs serving South Central and Lincoln Heights
- Provides educational grants to disadvantaged high school seniors
- Sponsors capital grants for youth agencies serving low-income neighborhoods
- Provides camping experiences for needy children through the Los Angeles Times Summer Camp Fund

It's an investment in the future made possible by the people of Southern California who support Times Charitable activities.

For a free booklet about the Los Angeles Times Fund, please write to Los Angeles Times Fund/Booklet, Times Mirror Square, Los Angeles, CA 90053. Your name will not be placed on a mailing list, nor will you receive any direct fund solicitation.

**Los Angeles Times**

# 1990 DISNEYLAND PIGSKIN CLASSIC

S

By Richard Dunn

tanding true to form with the animation and glitter of its marquee cheerleader, the inaugural Disneyland Pigskin Classic was more of an amusement park sensation last year as two of the nation's best, Colorado and Tennessee, dazzled the crowd and finished in a down-to-the-wire 31-31 standoff.

Disneyland's premiere Pigskin Classic gave new meaning to adventure-land.

Johnny Majors, Tennessee coach, had an opportunity to put his Volunteers ahead with 2 minutes, 25 seconds remaining, but instead choose to kick a PAT and even the score. Tennessee quarterback Andy Kelly had rallied his troops back to life in the fourth quarter after 24-10 and 31-17 deficits, but neither team, both highly-ranked in the pre-season polls, was able to pull out a victory.

So in what was expected to be merely an appetizer for the opening of the 1990 college football campaign, Tennessee and Colorado unveiled one of the greatest shows on earth. Coming from the makers of Disneyland, of course, what else would you expect?

Clearing the way for Disneyland Pigskin Classic II between Brigham Young and Florida State, Majors' Volunteers and Bill McCartney's Colorado Buffaloes put on an opening act that will never be forgotten by the 33,458 Anaheim Stadium fans on that warm Sunday afternoon back on Aug. 26, 1990.

"It looked like we had the victory a couple of times, but we couldn't keep them from answering our two touchdown advantage," said McCartney, whose Buffaloes would go on to earn the AP national championship (Georgia Tech won the UPI title). Playing without All-America fullback Eric Bieniemy because of a one-game suspension, Colorado had built its leads on the strength of wide receiver Mike Pritchard, who played wingback against the Vols while Bieniemy watched on the sideline.

Pritchard, who carried the ball 20 times for 217 yards, had touchdown runs of 78 and 55 yards, the former coming on quarterback Darian Hagan's 10-yard pitch in the fourth quarter to give the Buffaloes a 31-17 advantage. It was the first time Tennessee's defense had allowed a rusher to rack up more than 200 yards in a game since Alabama's Bobby Humphrey on Oct. 18, 1988.

Pritchard, going up the middle on a trap play, scored his 55-yard touchdown jaunt with 4:11 left in the third quarter for a 17-10 Colorado bulge, but Kelly dramatically completed 17 of 25 passes in the final quarter for 235 yards and three touchdowns as the eighth-ranked Volunteers evened matters and sent both teams home 0-0-1.

Colorado, ranked No. 5 in the AP poll entering the initial Disneyland Pigskin Classic, finished the season 11-1-1 after beating Notre Dame, 10-9, in the New Year's Day Orange Bowl. Tennessee, which ended the campaign 9-2-2 after defeating Virginia, 23-22, in the Jan. 1 Sugar Bowl, was No. 8 in the final AP rankings.

But what a beginning it was to a climactic season. Tennessee tailback Chuck Webb, who quietly ran for 131 yards on 27 carries as Kelly's late-inning heroics grabbed center stage, scored on a draw play with 2:25 remaining in the contest to pull the Volunteers to within one, 31-30, after Kelly had dropped back to pass on 27 of the preceding 28 plays. On second-and-goal and time fading, Webb sprinted into the end zone relatively untouched from the 4-yard line.

Kelly finished the game completing 33 of 55 passes for 368 yards and led the Vols to 21 points in the final 9 1/2 minutes, but Majors elected to send place-kicker Greg Burke out for the extra-point after Webb's score. There would be no fake and Burke's boot split the uprights to tie it.

"I had considered going for two a lot the whole game," Majors said. "I had mixed reviews, but I had made the decision. I felt we were doing better at that point, and if we could get the ball back, we'd have a good chance to get back up the field. I think I made a good decision and I'd do it again."

The decision appeared to have paid off when the Volunteers regained possession on their own 23-yard line with 30 seconds left on the clock.

Tennessee QB Andy Kelly threw for 368 yards to lead the Vols' fourth quarter comeback and tie Colorado, 31-31, in the inaugural Disneyland Pigskin Classic.

University of Tennessee Head Coach Johnny Majors contemplates how his Vols can stop the explosive Colorado offense.

Webb scampered 13 yards on the first play, then Colorado was flagged 15 yards for having 12 men on the field, giving Tennessee a first down on the Buffaloes' 49 with 24 seconds remaining.

Drive still alive: Webb gets the call and goes eight yards, getting out of bounds with 18 ticks left, but Kelly fired back-to-back incompletes, the latter with seven seconds left.

Webb, whose first half ineffectiveness forced the Volunteers to look for the pass more in the second half, carried for 46 yards on the final drive, including a 26-yard dash on the last play of the game, a fourth-and-two attempt which found him going out of bounds at the Colorado 15 with no time left.

"I was pleased with the way we came back, but I didn't want to come back to tie," Kelly said. "I doesn't feel good to tie, but you can always say it was not a loss. If there was any bright spot, we didn't lose."

McCartney, however, had his battalion prepared for a two-point conversion following Webb's last

touchdown. "I can understand their rationale," he said of the Tennessee decision to go for the tie. "I said when they got the ball back, if they score, they'll go for two. We had our defense ready for the two-point conversion, but the way things were going for them, I can understand they were counting on getting the ball back and going for it."

Tennessee's Carl Pickens (eight catches for 141 yards) and Alvin Harper (8 for 115) hauled in most of Kelly's passes, but it wasn't enough in the end.

Maybe the fairy tale of this Disney classic will continue in 1991.

# VOICES OF THE CLASSIC: RAYCOM SPORTS AND MUTUAL RADIO NETWORK

**R**aycom Sports and the Mutual Broadcasting System will provide the telecast and broadcast of tonight's Disneyland Pigskin Classic which will be beamed into 85 percent of the country's television homes and broadcast on more than 200 radio stations.

Raycom will have veteran television announcer Phil Stone handling the play-by-play with game analysis from Craig James. For Mutual Radio, sportscaster Tony Roberts will be the play-by-play voice and Jack Snow will provide the color commentary.

Stone has worked for Raycom Sports for the past five years as its play-by-play announcer for Pac-10 basketball games, NCAA and Southwest Conference football games. He has previously worked play-by-play for two Liberty Bowls, a Freedom Bowl and the Kickoff Classic.

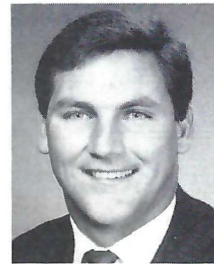

James, a former running back with Southern Methodist University and the New England Patriots, began his broadcasting career in 1989 with SMU Radio on a show called "Return to the Hilltop." His first Raycom Sports assignment was covering the Dallas Cowboys during last year's NFL pre-season.

Stone and James are no strangers to Anaheim Stadium as they were partners on Raycom's telecast at last season's exciting Freedom Bowl, in which Colorado State upset Oregon, 32-31.

Roberts has worked play-by-play on the Mutual Radio Network for Notre Dame football, NFL Sunday broadcasts and college basketball. Formerly the voice of Indiana University football and basketball, Navy football, Washington Senators baseball and Washington Bullets basketball, Roberts has

## RAYCOM

Tonight's second annual Disneyland Pigskin Classic is being televised nationally on the Raycom Sports Network, a syndicated television network covering approximately 85 percent of the country.

Raycom leads the nation in independent sports programming and is involved in virtually every aspect of the sports and entertainment marketplace. Founded in 1979 by Rick and Dee Ray, Raycom has grown into the primary supplier of college sports programming for ESPN and the major networks.

In addition to the Disneyland Pigskin Classic, Raycom football telecasts include regular-season Southwest Conference games, the Kickoff Classic, the Blockbuster Bowl and the Freedom Bowl.

The company televises college basketball for the Big Eight, Big Ten, Pac-10 and Southwest Conference and in conjunction with Jefferson-Pilot Teleproductions, the Atlantic Coast Conference.

Recently, Raycom has expanded into the professional sports market, televising pre-season games for the Dallas Cowboys, the Kansas City Chiefs and the Houston Oilers.

also anchored the network broadcast of the last three Olympics. He is a perennial choice as the Washington D.C. Sportscaster of the Year.

Snow began his stint with Mutual Radio in 1986 as an NFL game analyst, a position he still holds. He has also been game analyst and host for the Sea World Holiday Bowl. Snow's other broadcast experiences include the Rose Bowl for NBC Radio and Pac-10 football for Prime Ticket.

A former All-American wide receiver at Notre Dame in the 1960s, Snow was a Los Angeles Ram standout for 12 seasons until his retirement in 1976. He later served on the Ram coaching staff working with the wide receivers in 1982.

Roberts and Snow return as announcers for the Disneyland Pigskin Classic for the second year.

# ANAHEIM STADIUM

**A**naheim Stadium, known throughout Southern California as "The Big A," is currently home to the California Angels of major-league baseball and the Los Angeles Rams of the National Football League, as well as Orange County Sports Association (OCSA) events, the Disneyland Pigskin Classic and the Freedom Bowl. In fact, the OCSA offices are located on the third floor of the stadium.

Completed in 1966, the stadium hosted its first game on April 9 of that year, when the Angels played the San Francisco Giants in an exhibition game.

The stadium, which has a seating capacity of 70,500, is built on approximately 144 acres, with parking for 16,000 vehicles on the property. In addition to serving the Angels, the Rams and OCSA, the versatile facility has hosted such diverse events as Stadium Motocross, the Billy Graham Crusade and major concerts.

The original cost of the stadium was \$20 million (\$16 million for construction and \$4 million for purchase of the land). As an index to the rate of inflation, it is interesting to note that the 1979 expansion of The Big A to accommodate the 1980 arrival of the Rams carried a \$29 million price tag, with another \$2 million expended for the new scoreboard. The Rams made their first post-expansion appearance in the stadium on Aug. 11, 1980, when they hosted the New England Patriots in a preseason game.

The playing surface is natural turf, featuring hybrid Santa Ana Bermuda grass. Although it will not be in evidence at today's football game, the pitcher's mound for baseball is a unique apparatus that is lowered beneath the turf when not in use. It consists of a fiberglass base encased in a concrete pool that holds 3,500 gallons of water and weighs 19,000 pounds.

The following are some stadium facilities and services that may be helpful to you:

**First-Aid Station:**

Located on the Field Level adjacent to Gate 2.

**Information, Lost & Found:**

The Courtesy Service Information Center is located across from Gate 3 (Field Level) during events, as a service to patrons. The Lost & Found service is also there.

**Escalators:**

Public escalators are located at Gates 3, 4 and 9.

**Security Station:**

Located on the Field Level adjacent to Gate 1.

**Restrooms:**

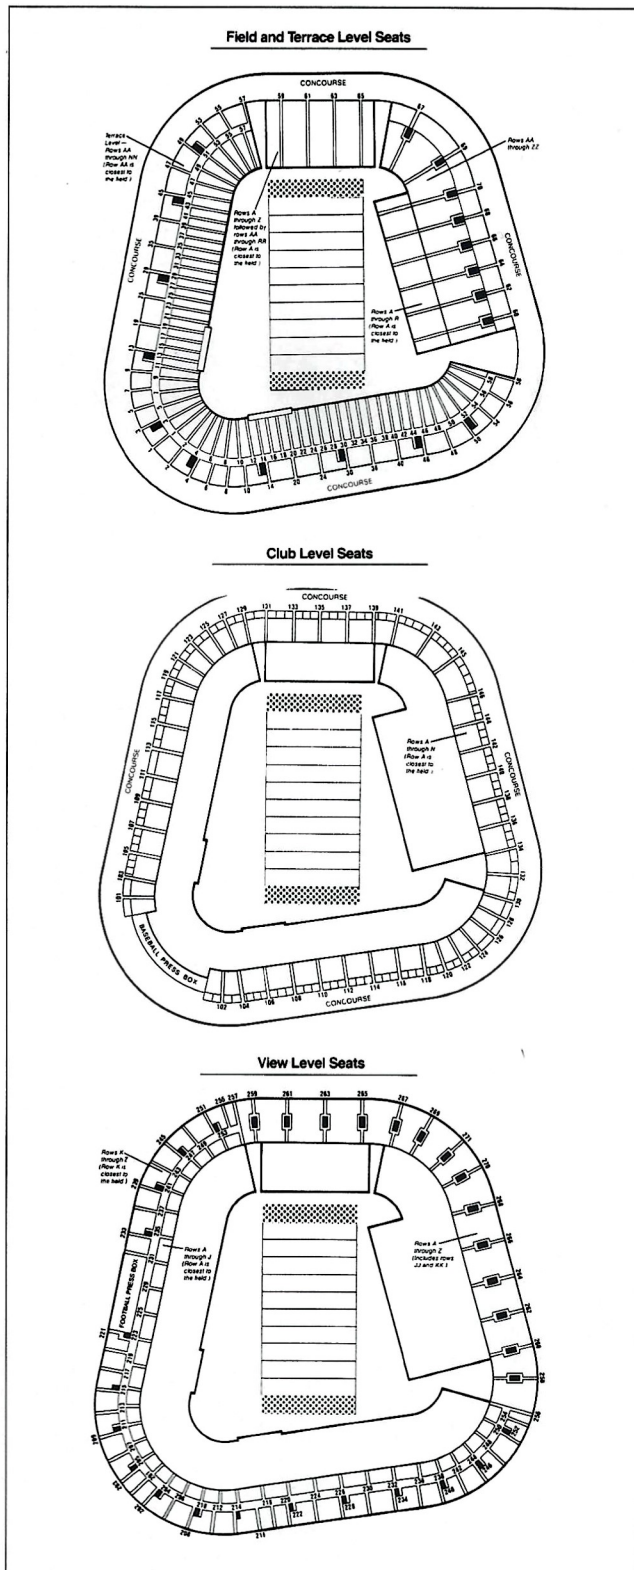

There is a total of 75 public restrooms located on the Field Level, Terrace Level, Club Level and View Level, with 38 designated for women and 37 for men.

**Concession Stands:**

There is a total of 195 concession stands in the stadium (46 portable and 149 permanent), located on all levels. Concession stands are operated by Ogden Entertainment Services.

**Souvenir Shop:**

Located near Gate 1, the Souvenir Shop, open daily year-round, features a variety of team souvenirs and gifts.

Carnation Ice Cream. Serving up American classics since 1926.
